Good day,

I am guessing the Jermaine Jones body cam and dash cam are being withheld. I am still requesting all media from all officers, body cam and dash as well as any depositions that have taken place. So I can add a record in my database to revisit later. If there is an exemption made for the family this exemption needs to extend to the public.

If you can't release this please advise on when the materials will be available. I am specifically looking at officer leathers role in this.

Outside of that request I am also requesting the arrest records and disciplinary files of all officers involved except leathers as you already gave me those.

I can't imagine how much stress these cops put on you. I couldn't do it, there would be very few cops left, I'd fire them all!!

I also know the GBI has this one too. So not expecting much.

Have a good day
As usual thanks.
Billy
