Good day,

This is a modification to my request sent on 4.19.23.

47 hours eh.. you guys are SLOW.. I can redact a 2 hour body cam video in about 20 minutes max and have many times, often there are no redactions, I do them, I am not interested in the private domain. I believe your fees are structured as a use of prior restraint to prevent the publishing of a story that is of public interest, about 3 million people think so anyways. Of course I am not there and have no idea how you do anything in regards to search and retrieval of amterials so I won't file a complaint, rather I will just do like I have been, make small requests. Seems I overwhelmed you. You guys really need an updated system, in my mind you are looking at a DOS terminal with a black screen and white text and it is connected to a 56K modem. That is how you make it seem anyways.

Here is my modified request.
