Q: Would you like to add anything else to your statement at this time?

A: Yes, I'm showing a sign in sheet dated January 6, 2005 that has among others, Gregg Junnier's name and signature. On the agenda under operational #2 it references confidential informants and states don't pay alone, don't meet alone, and don't date, and review SOP. Gregg Junnier's allegation that suggested that he was not trained properly on how to use informants is not true. The proper use of informants was an issue that the investigators were reminded of it often and discussed at team meetings and staff meetings. It was frequently discussed. I don't remember the exact date, but in the spring or summer of 2005, the informant Alex White was found to have an open drug case in Fulton County. It was discovered during a routine criminal history check as required by our departmental SOP. When this was brought to my attention I immediately deactivated Alex White as an informant with the Atlanta Police Narcotics nit. It was only after he was cleared through Fulton County Court, that he regained his status as an active informant.

Q: You are aware that this is an on-going investigation and you are forbidden to discuss details of this case with anyone other than your attorney or representative?

A: Yes.

Q. Are you aware that you may be required to submit to a computer voice stress analysis exam per APD.SOP 3120?

3.6 Employee Rights

- All employees have the right to have an attorney or other representative present during questioning in an administrative investigation. However, any employee who is either an accused employee or a witness in a complaint investigation may not act in the capacity of representative for any other employee being questioned as an accused or witness in that complaint investigation. An employee's representative shall be allowed to consult with the employee, and to object to questions, but shall not delay or interfere with the questioning process. Any objections to the form or content of the questions will be noted, but the employee shall still be required to answer fully and completely any and all questions presented during the investigation. An employee cannot delay questioning for more than three hours beyond the time he or she was given notice to appear for the questioning.
- All employees will be issued a written statement of the allegations (i.e., complainant's statement or preliminary complaint form) and the employee's rights and responsibilities relative to the investigation against him/her prior to any questioning.
- All employees who are subject to any form of discipline, whether non-adverse or adverse action, will be given written documentation of the disciplinary action taken. This written documentation must state the work rule which applies to the disciplinary action taken, information and/or documentation supporting the alleged work rule violation, and the disciplinary action that was taken. Employees must sign the written documentation stating that they have been notified of the disciplinary action taken. The employee's signature does not constitute an admission of guilt or wrongdoing, it serves only as receipt of the written documentation of disciplinary action and notification of the same.
- The employee against whom a complaint has been filed may review the investigative folder upon completion of that investigation. The OPS commander will designate the area where the folder is to be reviewed and establish rules governing the review of the folder.
- If the employee is being questioned as a suspect in a criminal investigation, the employee will be afforded complete Miranda Rights.
- Administrative statements made by employees and evidence gained as a result of such statements shall not be used against the employee in criminal proceedings involving the employee except in cases of perjury.

Q: Explain exactly how the "Knock and Talk" tactic worked?

A: To the best of my memory it was when we had a lead sheet for information that illegal narcotics was going on and we did not or could not develop sufficient evidence for a warrant. We would just knock on the door a talk with the individuals inside just to see if we could ascertain more information.

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: No.

Q: Are you familiar with the phrase "Freezing the Scene"?

A: Yes.

Q: Did the supervisors know of or instruct the investigators on "Freezing the Scene"?

A: I don't know. I'm familiar with the fraise freeze the scene. I don't remember any specifics like we did it at this address on this date. I don't remember that so if I don't remember that I don't know if a supervisor instructed any one to do that on specific incidents.

Once it is signed then they would let us know the warrant is signed and then we would execute the warrant.

A: Major Finley, it wasn't during the time frame we are referring to here. It was since then and we had to write a memo and send it up the chain of command. But I just answered the question as it was asked. A example would be while working in Zone Three under Major Finley Grant Park might have had a run or race. So we would work a extra job for that and he would allow us to use a vehicle to help with traffic around Grant Park.

Q: When were you assigned to the Atlanta Police Narcotics Squad?

A: January or February of 2001, I'm not sure. It might have been July of 2001 and I stayed for two years or until 2003.

Q: How many teams did you supervise and who were your Sergeants?

A: Probably five or six teams and supervisors were Sgt. Sanchez, Sgt. Quiller at the time, Sgt. Sparwath, Sgt. Mills and Sgt. Pete Stallings. Sgt. Durant was in Weed and Seed.

Q: During your tenure as a narcotics commander, were there any Sergeants under your command that you didn't trust?

A: Yes there were two. One was Sgt. Pete Stallings and the second one was Sgt. Carrie Mills. With Pete Stallings I made some attempts to have him transferred and I forwarded the information to my Major at the time, John Mathis and nothing happen so I was stuck with him. My issue with Sgt. Mills was I felt that she was a good supervisor; however the trust factor was not there. She had a kind of a direct pipeline to Deputy Chief Brooks.

Q: Was your distrust with Sgt. Stallings as result of day to day narcotics activity or was he just not a team player?

A: I think it was more of a personality issue, I'm more direct, let's get the mission done. I know his area of responsibility would never cover it. I'm very particular about you needing to be in you area at that particular time. All of his enforcement activity wasn't in the area where he needed to be. I think that he was assigned to zone four and he was always in zone one. I had issues with that. He was always like there are no drugs in zone four and I was like there are plenty of drugs in zone four. So again, I was like let's just follow protocol and focus on zone four, regardless of where your hummy hole is in zone one.

Q: At that time, did you ever detect that there were any types of corruptions issues?

A: No, my assessment or my evaluation of him was that he was just kind of easy and kind of soft. I thought he was slow on paperwork, just a real nice guy for employees to work for.

Q: During your tenure as a narcotics commander, were there any investigators under your command that you didn't trust?

A: No, because if I had any issue with anybody, I want to deal with them, if I heard anything crazy, I want to deal with them, especially that type of issue.

Q: During your tenure as a Narcotics Commander did you feel that your sergeants were adequately trained to supervise their investigators?

A: I felt they were, we had in-house training and the opportunity for outside training was available. The common theme of things was that they would rather go to their extra jobs. We had a pretty good contact with Clayton County Major Narcotics Unit at that time and we did a lot of training with them. At the time we had a good relationship with the Fulton County DA's Office and either Ran Chehee or Lee Dupree would give us some type of updates and one or two hours training blocks.

EMPLOYEE STATEMENT

EMPLOYEE: Ernest Finley OPS # 09-I-0206-SOP

Q: During your tenure as a Narcotics Commander do you recall instances where you denied investigators training in any or all of these areas?

A: No, it was available.

Q: During your tenure as a Narcotics Commander did you encourage your sergeants and investigators to pursue training in any or all of these areas?

A: Yes, but the biggest issue with them was extra jobs. I encouraged them, but not to the point of pushing them, but if training was available they could have it. I know that when we did have some training dates the biggest conflict was extra jobs. I can't think of any of them being gun-ho about training, training, training. I doubt that I ever denied any training.

Q: While serving as a commander, did you feel that your investigators were adequately trained to carryout narcotics investigations?

A: Yes.

Q: While serving as a commander, did you feel that your unit had proper equipment and resources to carryout their daily assignments? (Examples: undercover cars, buy money, raid equipment, etc.)

A: We made the best of the situation; it was like that in the early 90's we made the best of the situation.

Q: While serving as a commander, where there times when sergeants or investigators came to and personally complained about not having necessary resources or equipment?

A: I'm quite sure that they did, but when you talk about cars, it is what it is. We did the barter system, we did the best that we could with what we had. We didn't have a plethora of anything, but these guys were creative enough to do the best with cars, surveillance equipment, or whatever it takes to get the job done that didn't violate policies.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: Did you have any personal knowledge that investigators under your command were obtaining warrants by using the "Hand-Off" method?

A: No.

Q: During your tenure as a Narcotics Commander did you create a team that only allowed Investigators Barnes and Mason to make illegal drug buys and they gave the information to other team members to obtain the warrant?

A: No

Q: Are you aware of any type of detail similar to this that involved Investigators Barnes and Mason?

A: We were in the process of trying to create something like that. One of the things that I was trying to do was come up with a buy team, individuals who could buy dope and blend in. What we wanted to do were use people every six months who were fit trained, but that never happen. We discussed this with my supervisors and Barnes was assigned to Intelligence and Mason was kind of a free lancer with the Gang Unit. I discussed it with my supervisors and they didn't support it, so it was kind of a no go. Mason did a couple of details for us where he worked some lead sheets and he got his own warrants and he requested Narcotics to hit his warrants. That was it, as far as Mason on those one or two warrants. As far as Barnes, the idea never came up again. It was a stretch.

Q: Did you sometimes participate in drug raids by attending the briefings and making entry into the drug locations?

A: Absolutely.

Q: Did you ever question investigators about information in the affidavit portion of their warrants and how they obtained probable cause for the search?

A: Yes, I'm a noisy kind of hands-on guy. A lot of the details I was part of the operations as far as going out to see what they do. I was going out with the informants, making the buy bust, whatever the case was I was there. Each team operated differently, but for the most part I kind of spread myself and I was aware of the dynamics of the team.

Q: Were you familiar with the term "Nine and Two", within the Narcotics Division?

A: Yes.

Q: Did you write a memorandum dated on July 30, 2003, in reference to the "Nine and Two" requirement?

A: I don't think I ever wrote a memo on "Nine and Two". This was kind of a running joke in the Narcotics Unit at the time. This first memo was on July 30 and I think that this is a revision and I added something to it. The purpose of the memo, and again as I look at it today I can see the issue of a quote unquote "Quota" system. But it was never policy, it was never acted upon and no one was ever made to fulfill these requirements here. The purpose of this memo was to motivate us, based on a lack of enforcement. We were getting beat up on our lead sheets; we were getting beat up on in our community meetings, which I did back then. It was embarrassing that we were not doing anything effective, so I was just trying to do something to address these quality of life issues in the city. So to have all these guys in the unit moping and complaining, we had to do something. So again one of the things I did was wrote this memo. I sent it up the chain of command, the first one that was written on July 30, in regards to letting my chain of command know that I'm trying. I'm trying to put a fire under these guys; I'm trying to produce some productivity. It came back to basically resend the first one. The second one again one of the things I added differently was the third paragraph. One of the things that we were trying to do with the quality of life unit which was with Sgt. Paul Sparwath team is that they don't execute any warrants. They did a lot of knock and talks and this was easy for them, so all of the measurements her was something that they did on a daily or weekly basis. So again, I'm thinking that I'm making it idiot proof, because looking at all of the officer's performances and the supervisor's performances this is something that can be measured and again it was recanted the very next day by Chief Brooks and two days later I was promoted. Again it wasn't intended to be directed as a quota. That wasn't my intent. My intent was to motivate these guys, but in retrospect and looking at it in the position that I am in now, I can see that. Again no one was discipline and this memo was not acted upon.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: So based on your memory and you said that you were familiar with the term "Nine and Two" within the narcotics division, was that a term thrown around or used before this memo was written or after?

A: Before, yes way before.

Q: Do you know where those numbers came from?

A: Yes it was a computation of statistical numbers from the year before and I think in 2001 or 2002 we were setting our goals and one of the things that I did was to pull and add all of the narcotics arrests for that 12 month period, and the numbers were higher than 9 and 2. I mean it was higher than 9 bodies and 2 warrants a week and it was on a consistent basis for two years in a row. So I sat down with my supervisors in a round table meeting and we discussed this, and I got by it. This wasn't anything that we weren't already doing; it was just putting things at a higher mark, as a measuring tool to measure our success. If you guys pull our narcotics arrest for 2001 and 2002 you could see that it exceeded that and this was a combination of each and every officer. Some officers never reached that but you know what each team had officers for certain things. Some officers didn't make arrest, but they were supportive in their unit's mission, so I encouraged participation. I let them know that every officer has a duty and a responsibility because we know that some officers were afraid to buy dope back then. So they could assist on take downs, they could assist on property, assist with transport, so again no one was disciplined. That was just an unwritten rule based on statistical information form 2000 and 2001 and again it was understood and each and every supervisor knew those numbers.

Q: There are two things I want to clear up and then were going to move on, number one were those numbers a ridiculous amount and was it difficult for investigators to reach those numbers?

A: No those numbers were measurable based on the statistical information, based on the buy in of other supervisors, actually some officers like Junnier and a couple other officers exceeded those numbers in one night. My mission was to increase our presence and deal with quality of life issues. If it was there then we needed to deal with it and it didn't have to be a drug issue. It could be a prostitute issue, it could be a drinking in public issue, I could care less, as long as they clear that corner for me and that little old lady and papa is happy and there was no disturbance. I was happy with that.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: The last thing and were going to move on, this philosophy you said that your superiors were aware of it?

A: I forwarded everything that I wrote. I forwarded it up.

Q: Was this ever in writing?

A: No it was never in writing, it was informal, we had discussions and I showed the breakdown of the arrest and that was it. Now as far as the "Two", the "Two" has always been a measuring tool for narcotics since the early 1990's. We didn't do anything magical with that, because how could you go thirty days with two warrants and no bodies. I just think that was crazy so based on past work experience from the previous year we wanted to add a little more flavor to the productivity. The narcotics unit needed to be a little more effective.

Q: Was the Nine and Two system used as a form of evaluation during your tenure as a Narcotics Commander?

A: I would say yes, I saw some of the old evaluations and the officers got the highly effective or outstanding were based on that, plus other things. One of the things we looked at was court attendance, disciplinary history and the whole nine yards.

Q: Were there times when an investigator didn't meet the "Nine and Two" requirement?

A: Absolutely.

Q: What would happen to those investigators that didn't meet the "Nine and Two" standard, what type of punishment would they incur?

A: None, no.

Q: Did you ever instruct your sergeants to threaten or transfer investigators or suspend their extra job privileges if they didn't meet the "Nine and Two" criteria?

A: No sir.

Q: Were you aware of the tactic "Knock and Talk"?

A: Yes.

Q: How does the "Knock and Talk" tactic work?

A: It was based on lead sheet information, drug information that they received. It was used by team 5, Sparwarth's team as a means to let folk know that we were looking at them and we asked their permission to come in and do a courtesy search for drugs based on lead sheet complaints. It worked effectively for his team, because his team did very few search warrants. It was one of the best ways to determine if any further narcotics investigation was needed.

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: With the knock and talk they got consent and we had a reason to be there and as long as the occupants gave consent. Absent consent, they would need a warrant, to answer the question, no.

Q: Did anyone under your command ever complain to you about investigators or teams using the "Knock and Talk" tactic to enter people's homes and perform illegal searches?

Q: What was the time frame you work in the Narcotics Unit as a Lieutenant or Commander?

A: I got there approximately the last week of January 2006. I want to say the 26 or 27 somewhere around in there and I left there whenever the Friday before Memorial Day was in 2007. So the last Friday of like May somewhere around in there, I don't know the exact date end of May.

Q: How many teams did you supervise and who were your Sergeants?

A: There were two teams Sergeant Sparworth and Sergeant Stallings and then Sergeant Keeble was an administrative supervisor and he had two people that worked under him. One was Investigator Murdock who originally was on light duty status and he handled the lead sheet data base and then investigator Duncan who did some daytime lead sheet follow up stuff for us.

Q: Prior to the Neal Street investigation, were there any investigators under your command that you didn't trust?

A: No.

Q: During your tenure as a Narcotics Commander did you feel that your sergeants were adequately trained to supervise their investigators?

A: Yes I did. Sergeant Stallings had been a supervisor since the late ninety's. I don't remember exactly what year in the late ninety's but I left Narcotics in January, excuse me in December of ninety-nine and he was already there as a supervisor, and then Sergeant Sparworth, I made Sergeant in December I think of ninety-nine, and he either made at the same time I did or a few months later. So both sergeants at the time had six years and whatever nine, thirteen years, no whatever twelve years experience or ten years experience and had been in the unit for Pete had been in the unit for eight years, seven or eight years as a supervisor and Spallworth had been there for three or four I believe. I have to double check the exact date when they got there but I know Sergeant Stallings was there prior to my leaving in ninety nine.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of writing police reports?

A: Yes, but let me tell you one thing I went to Weed and Seed in two thousand and one. He might have went to Narcotics while I was in Weed and Seed late nineties, two thousand one. I know I work with him over there prior to my ever going back in two thousand six.

Q: This was Sergeant Stallings?

A: Yes.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of writing arrest warrants?

A: Yes.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of writing search warrants?

A: Yes, I felt so I read a lot of the warrants and went on a lot of the warrants. Other than Tessler who got there when I did, I believe in January. The next newest person I believe had been two thousand and four I think next newest people would have been maybe Jr. and Holly and couple other people and they had been there for two years and then I had a group of people who had went there with me originally I think in ninety five. But yes.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of handling evidence?

A: Yes.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of police integrity?

A: I can't say that ever attended any formal police integrity training. But I had no reason to believe that they did not have integrity. I never sent them to integrity training class nor, do I specifically know if they attended police integrity, you know class.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: Well let me ask you a question, a follow up to this one. While you were there where there any instances that occurred that made you feel like you needed to address police integrity?

A: No, and this is what I told the F.B.I and I told it to everyone. In the ten months I was there I never received an anonymous phone call. Not even a pick up your phone and somebody say. Hey those three white guys in a car or you need to do something. I never received and anonymous call. I never received an anonymous tip. The only O.P.S. investigation I ever remember handling was against Maurice Guerin which some drug dealer did say he did not turn in his money. We went straight down to property. The money was there. The time stamp, the time sheet was stamped. Everything was exactly, you know. I never had another investigator come to me. I never had another supervisor or no one ever said to me you need to. So no I didn't have. I never had anyone approach me with any type of allegation.

Q: During your tenure as a Narcotics Commander did you feel that your investigators were adequately trained in the area of handling confidential informants?

A: Yes, I had no reason not to. The investigators that were handling confidential informants, like I said the minimum they had been there other than Tessler who arrived when I did in January had been a couple years. The other ones had been handling informants for long periods of time. I never received any kind of complaint from an informant who said that they didn't pay me. They lied to me. I never had one of my Sergeants come to me and say you know there seems to be a problem with this informant we were doing the thing where you have to run the records. Sergeant Keeble did that. Know I did not personally know all of the informants but I knew some of them just form going out on warrants. No one ever expressed to me at anytime, any of the investigators that they, you know was the least bit uncomfortable, you know around informants and the informants. I never if I remember correctly I may have only signed off on one informant package. Now I could be mistaken about that. But I don't think, so the informants that were being used were informants being used prior to my getting there. So it wasn't somebody that appeared to have a new informant that was uncomfortable with them. I think I may have signed off on one informant package. But the majority of them were already being utilized when I arrived. So yes I feel like they were I didn't have a reason to feel like they weren't.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: So basically you are saying that this system was already in place and you never felt the urge or you didn't feel like any of this need to be reviewed?

A: Well we did have, they did have the review. Sergeant Keeble cause we had the hold thing you know and once they, they, I don't remember if they made some changes to the way they were issuing money but everybody who got money had to come up there and you know sit through the class. I don't know if they call it a refresher or just a change to the S.O.P. but the procedure for checking out money and filling out vouchers. They were using the same voucher in two thousand six as they were using in nineteen ninety five when I got there unless a word or two had change it was the same basic format. So these investigators had been using that voucher and had not had any issues that I was aware of or reported the issues of there being a problem. I mean it's a pretty self explanatory form you know, here, here, here, sign it, fill it out and attach it to you r report. It didn't change the procedure of using it.

Q: You felt like this system was adequate?

A: I felt like it was. It had been in place all along. I'm assuming you seen a voucher. You know its very clear cut. There a line to for evidence. A line to pay the informants, a line for additional expense, I forgot what that wording is but you add it up then it says, you know. There's a paragraph to write what this money went to then you attach it to the report and it has to however much money you checked out. It has to coincide with either what you returned to them or how much or how many vouchers you totaled up.

Q: During your tenure as a Narcotics Commander do you recall instances where you denied investigators training in any or all of these areas?

A: I do not remember ever denying any investigator any training or vacation time or anything that's requested. Now I can't say one hundred percent that I may have denied something but, I have no recollection of doing so but, I cant say one hundred percent. Now I would have to assume had I done that it would have been for shortage of personnel or something like that .I would have had no reason anytime they requested H.I.D.A training or anything like that I always tried to accommodate them.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: While serving as a commander, did you feel that your investigators were adequately trained to carryout narcotics investigations?

A: Well, having gone out on a lot of investigations I did some buys. I went out and did surveillance on them. I never saw that they were. Like I said that the newest person there was Investigator Tessler. From the time he got there I went out on the first few things that he went out on. I went on quite a few warrants he wrote. I would estimate in the ten months I was there in January until, lets say Neal Street happened cause obviously procedures changed after that. I probably went out on fifty warrants, forty. I mean if I just had to guess. I went out you know, on a lot of investigations, sat in on a lot of debriefings. Was constantly walking around there sitting down asking about specific cases? So I didn't feel they, I feel like they were trained on investigations. I feel like they knew what they were doing. When they asked me questions, which sometimes people did I always stop to assist in any way I could.

Q: While serving as a commander, did you feel that your unit had proper equipment and resources to carryout their daily assignments? (Examples: undercover cars, buy money, raid equipment, etc.)

A: I know that both teams had entry equipment and raid equipment. I think maybe, there were a couple of times when we were possibly a couple of tact vest short from people not returning them in and leaving to other assignments. There wasn't any money at the time to order additional ones but we did round those back up and I think everybody did have that. No one ever complained to me about the car situation. In fact the car situation was much better than when I was an investigator or a sergeant.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: While serving as a commander, where there times when sergeants or investigators came to and personally complained about not having necessary resources or equipment?

A: The only thing, I think they may have at some point wanted an additional marked patrol vehicle because we had two marked vehicles but early on to my getting there one of them just died. It was very, very old and possibly I put in my budget for new raid vans. They were just old. We had them but the air didn't work on one. Obviously, I never had anybody, we had protective gear. We had shields. We got new shields while I was there. I think at some point a couple people back and forth with wanting to carry those minelly things, or whatever that wasn't approved. But, specifically in something that they needed we had that. I think a couple of times as was the case the city money would run out and we would have to wait for city hall to cut us a check, which was a city hall procedural issue. But, I don't recall anything else.

Q: Do you know who wanted the marked patrol vehicle?

A: Well there were two of them. The one that actually said "Narcotics" on it, I think that was assigned to Sergeant Stallings team. The other one that died I think was originally assigned to Sergeant Spartworth's team.

Q: My question is who was the particular investigation in question?

A: I can't remember if like or if it was either Junnier or one them came to me and either said. Can we get their team another car so they don't have to use ours? Or, can we get us another car, because they had to share.

Q: But you are not sure?

Q: How do you know it was done?

A: Because, it was done. I'm assuming it was done prior to my getting there. Because the first time I drove, I had a take home car. For whatever reason my take home car, I believe was in the shop. So I was going to drive one of those little Ford or Chevrolet whatever those little Chevrolet cars are and I got in one and it had black tinted windows. Where as either the others weren't nearly that tinted or they weren't tinted at all and I made some reference to and Sergeant Stallings said something about the fact. Well Junnier had those windows tinted by a guy and he produced some kind of business card. But he had approval to do so and I said what kind of approval and he said that was before you got here he had approval to do so and then, after some point I heard that Junnier said to the F.B.I. Maybe the F.B.I asked me or whatever, that he had done that. He had wrote a voucher for that, or something like that but, I never approved that, and it appears to have been done prior to my getting there. Because I didn't know that the windows weren't suppose to be tinted. But I heard later that he said he did that. No one ever talk to me, about, or any investigators did about anything to do with can we put that on a voucher. I told the F.B.I and I said the same thing that on the voucher there the place for drug expense, place where you pay them and then the place where additional expense or whatever, and it was always if somebody wanted and over the years if you had and informant that lived outside of the city someone might get permission. I remember doing it myself. To let that informant take Marta or whatever and you would write on there, and you would write on there get paid and additional five dollars, and you would note in there that that was approval for Marta so that we didn't have to drive them out to Cobb County or whatever. But it was all documented on the thing. But I don't think anybody ask me about doing that. But I know I had done that before with approval as an investigator and over the years people had said to me this informant lives way past Green briar can we let them take the bus and pay their bus fair back and we noted it on the voucher as an expense as to what we did. No one ever asked me about doing anything with a voucher that I remember and certainly nothing to do that's not informant or drug related.

I even heard them once elude to the fact that they wanted to do that with an old van that one of the people had and I was admit that you don't use your own money. You don't use your own car. You don't do anything with your own time or with your own property.

Q: Do you have any personal knowledge of any investigator using their personal vehicle to make drug buys?

A: No, I don't know if any ever did. It was eluded to one time and I said no. Whether they did it after that I don't know. They didn't act like they were.

Q: Did any sergeant or investigator ever complain to you about not having enough undercover cars to make drug buys with?

A: Not having enough. I'm sure over the course of time they would make reference to them being burned. They wished we could swap them out. People knew who they were because we had all those little Chevrolet things and they were kind of easy to remember. So I'm sure at some point somebody said we need to get some more cars these are burned. But we've been saying that since I was an investigator.

Q: Where did you hear the term and how was it explained to you?

A: I told the F.B.I the same thing when they first ask me about nine and two. When they asked me about it, it kind of caught me off guard. Because I told them, I think my exact words where something like, that's some kind of old wish tale. It's like somewhere along the way somebody I guess had said. Good grief if you can't lock up nine people. It was just something like that it just had carried, you know I just heard it years and years ago and had not thought about it in years and years until the F.B.I specifically said. Well you know you all got that nine and two rule and I think the first words that popped out of my mouth was We didn't have a nine and two rule. That's some old wise. I just heard it somewhere. It goes back, I heard it long time ago but I don't remember who said but I heard it.

Q: Have you seen it in writing?

A: I have never seen it in writing.

Q: Was the Nine and Two system used as a form of evaluation during your tenure as a Narcotics Commander?

A: No, cause I never even thought about it till after Neal Street and I was asked about it by the F.B.I. I don't remember ever being heard, said while I was the commander. I remember it from years way you know, somewhere along the line. I never said it.

Q: What would happen to those investigators that didn't meet the "Nine and Two" standard, what type of punishment would they incur?

There wasn't anyone up there I would wanted to have threatened. I'm sure at some point I spoke to somebody just in general. But no I never tried to take anything away from anybody.

Q: Were you aware of the tactic "Knock and Talk"?

A: Yes.

Q: How does the "Knock and Talk" tactic work?

A: I think Ill explain it the same way I explained it to the F.B.I. The easiest way is to look at it like say from a lead sheet example. I might, we might receive a lead sheet. It might be very vague said there's a lady, older lady that lives at 610 North Avenue. She's got some grand kids that come out of there and sell. Well a lot of times in a situation like that. Especially if it happens in public housing property you can just go knock on the door. I incur rage them because usually the sheets were anonymous. We wouldn't want to give up somebody's name. To take the sheet and say look Ms. Griffin we received this information and we don't know if it's correct. We don't know if its not. But it kind of concerned us. We wanted to talk to you about it. Once you went in, I have done a few of these myself. You actually set them down and talk to them and say here is what we have. Have you had any problems with you grandkids? Do you think there could be any drugs in there? I know over the years I did some as an investigator. I'm pretty sure I went on some as a Lieutenant. Your just basically saying here's some information that was provided to us were just trying to see if it's true. We would also occasionally have those issues especially in AHA properties. AHA properties would call us and they would have gotten complaints in the leasing office that the lady lives there but her boyfriend was selling. Instead of tearing down doors and that type of thing, we would just knock on the door and say we know you live here but we've gotten some concerns.

Providing them the majority of the documentation that they were asking for and I came in one day and I believe Chief Andreson said to me. Here is a list of what we need to get together. They are going to pick it up this afternoon and the first thing either he verbally told me extra jobs or it was written on there and I said to him Junnier doesn't work any extra jobs that I'm aware of. The only one I think Tessler works was not Home Depot but that other place I think. Not Lowes, but one of these others like in Buckhead lawn places. I said the name of it at the time I said and then J.R works the parking lot of a restaurant and I think that was in Zone Six and said well no they said Junnier does. So I went back to Junniers personnel file. Well Junnier's birthday I suppose is in July because I found a stack. This would have been after Neal Street. Probably early winter, Spring I saw some extra job sheets in there and I pulled them out and they had been signed by the prior lieutenant all the way up. They were fully signed but they had expired in July. Well he had never come back to me and ask to have these signed and they had memos attached to them if I remember correctly and it said something about consulting or something like that and I took them down there and I took them down there and I'm like Chief. I don't know, I've never seen these. Well I knew Id never seen any kind of green sheet on him or anything like that and I knew that they were working an AHA grant and they were already working the amount of hours you can work on that. Well I checked with inspections and at the time I don't know if this is changed. If you do consulting then you don't have to fill out a green sheet or whatever it was. So I started trying to figure out because no one had ever said to me Junnier has a consulting business. Junnier had never said it to me and I saw Junnier every single day and so I kind of started trying to read it and trying figure out what it was and I was able to kind of ascertain that what he was saying he was doing in these memos. Is he was going to go on a property like 425 Chappell. I'm just going to use that cause it come to mind and consult with them whether to put more lighting in or cut. It looks like what a crime prevention inspector would do. But I had no idea be. Because he had never brought those things to me and I think the reason he didn't bring them to me is because at time they had that approved overtime. Four hours on your work day or I think eight on your off day and I would have had questions because they were working that and I knew there would have been some kind of. But those things had laps in July and it wasn't till and no one said to me Junnier has a consulting business or Junnier works. Then after I pulled them out that day and looked at them. I started looking at some of the addresses and

I realized that I didn't go look at all the addresses but between the F.B.I. Guys and myself. We were, I was kind of able to ascertain where a couple of them were. I know one of them would have been, two of them were out in Zone One and I realized then that they were places we had like one of them I think was a store parking lot. We had five nine (meet) there to go on warrants. But I never heard J.R. or Tessler ever reference working anything for Junnier nor did I ever hear. I don't remember anybody ever handing me any kind of extra job where they had like Junnier as the coordinator. I didn't know Junnier even, you know.

Q: On those permits do you recall who approved these extra jobs?

A: The order it had all four things. I'm assuming it would have had to have been Lt. Browning. I'm just guessing. I just know they never came to me. I had never seen them in my life. Because when Chief Andreson first said the F.B.I. is coming at two. This is what they need you to pull.

Q: So you handed them over and you never seen them. What did you do with them?

A: I guess they're probably the originals. I don't know if we photocopied and we kept the originals or they got the originals. They subpoenaed them or however at that point. They even subpoenaed me for my Q-pay but that was the only subpoena I ever saw. Normally they would call up. Either call me directly or a lot of times Chief and they'd be like ok we are coming to get this, this, and this and we would get it and we would type up a sheet and they would sign for it. I assumed when I pulled them out that day and then realized that he had never come back to me and then I didn't know anything about these jobs. I thought well maybe he quit working them and then over time it's come back out that they were. But the way they were written they were written to be you go on there and you look at the property and you tell them. It should be I'm sure its in your F.B.I. file or the paper work of the F.B.I. file cause we gave them to them. They each had a memo attached to them.

Q: Is there anything else?

A: Only that on the padding of vouchers. My understanding from having watch Junnier in court, in conversations not formal interviews I had with the F.B.I. But just interviews and turning over stuff. That his interpretation padding vouchers was they were putting more on there so they could go out and buy what ever it was they needed or thought they needed. That I don't know what they are saying they bout. To me if they were padding vouchers they were pocketing the money. Because, I don't know what they, other then what I told you the one thing I assumed is what they did to tint those windows. I never saw them in possession of anything where it was something that they didn't have in the unit. If they were padding them in my opinion they were pocketing the money because I don't know what they were trying to say. They are trying to say that was approved to do that so they could buy stuff they needed. They never requested anything and I'm not sure what they trying to say they bought with that, that they needed. I think they were just stilling the money.

Q: But you never knew until after the investigation?

A: No, I didn't know anything about padding any kind of vouchers. Know I didn't sign off on vouchers unless maybe Pete wasn't there. But I guess you seen enough of the vouchers to know that basically as a supervisor your signing off to make sure that its filled out. The moneys there this there, this is there, and then you write, read what they said they did with the money and make sure that that is to pay an informant. It was used to make a buy and then you attach it to the report. Obviously, you're signing that everything is there the way it's supposed to be. You wouldn't know if what they wrote was true unless you were out with them every time they paid an informant or what ever. So I did occasionally, I didn't have to sign them. The only time I think I was required to sign them if the pay off was over a certain amount. But other than that I would only if Pete of sergeant Sparworth was gone and they needed to reconcile their money. I would sign but all I had to go on was what they wrote and match it up with the seventeen. But they certainly never tried to ask me could they write anything up

Q: Did you feel that the rest of the team was adequately trained to work as Narcotics Investigators?

A: To a certain degree. I mean as far as undercover work goes, it could have been more training on that. I think we were kind of limited on that. I mean some people were.

Q: Did you ever request training, and you were denied.

A: No. I just think that before you become an investigator, there should be more training before that.

Q: During the course of your police career with APD, have you ever used a confidential informant?

A: Yes.

Q: Explain how you would use an informant to make a drug buy, in order to obtain a search warrant. What steps would you take during this process?

A: Well you would speak to the informant and let them know what type of place this is. Let them know what type of dope may be at the location, find out what type of weapons might be at the location. It just depends on the location, sometimes you may have to go inside and sometimes you may have to go outside. It depends on the type of situation.

Q: Would you always search the informant before they made a drug purchase?

A: You would check them, I mean not every time you would search them; it depends on what they were wearing

Q: Would you always search the informant after they made a drug purchase?

A: Well a lot of times, you're in certain situations as a undercover detective and you don't want them signing things in the open after they have directly made a buy, you don't want them signing papers. A lot of times when you have them in a secret location, you might want them to sign several of them. That way it doesn't hinder you and you can just keep it moving right along. Q: Who told you this information?

A: My sergeant told me this.

Q: How about you're Lieutenant or your Major?

A: I don't recall my Lieutenant or the Major saying anything like that. It was always kind of nine and two especially when Major Finley was the Lieutenant in narcotics. It was really expressed.

Q: So were you there in the narcotics division when Lieutenant Finley was the commander?

A: Yes sir briefly.

Q: So he enforced the "Nine and Two" system?

A: Right, yes he pushed it and it never left, even after he left.

Q: Ok, other than the threats about your extra jobs, did anybody get punished or demoted?

A: I never saw that, and it didn't happen to me.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

A: No. We would do details, street sweeps where we would all go out together and make arrest. So we were always together making arrest but in terms in the names on the tickets we would face problems. So I don't recall seeing anybody doing anything like that outside of us going out as a unit doing details. Q: Who was the supervisor?

A: Sergeant Finley.

Q: What was some of the pressures that he put on you?

Q: What did this term mean to you?

A: It meant nine cases or nine arrest and two search warrants.

Q: Are you familiar with any supervisors who used the term "Nine and Two" within the Narcotics Division?

A: Yes but I can't remember which supervisors. I think I don't know it became common practice as to that being a requirement. Like that being the bar set and don't recall supervisors saying you got to have nine and two. But I do recall that being the bar set.

Q: Have you seen any documentation such as memorandums or anything in writing?

A: No.

Q: Who were the supervisors who knew and used this term?

A: I don't recall a supervisor actually saying where you got to have nine and two. It was almost a common bar. It was just a bar set for Narcotics. How It became common I don't recall. But I know that was the common goal and I don't recall being punished for not getting it but that was the common bar.

Q: Did you interpret Nine and Two" as a threat, possibly in losing extra jobs or getting reassigned?

A: No, it was hard to get out of Narcotics.

Q: Did your team abide by, follow, the Nine and Two philosophy?

A: Yes that was common practice. That was common knowledge of everybody. That was the common bar set. So abide by it, I cant say that but that was the common bar

Q: Are you aware of the tactic "Knock and Talk"?

A: Yes.

Q: Explain exactly how the "Knock and Talk" tactic worked?

A: For me the Knock and Talk tactic would be to knock on doors to see if anybody witnessed any crimes. I spent time in the assault unit solving crimes canvassing the areas for witnesses. That is what it meant to me

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: No.

Q: Are you familiar with the phrase "Freezing the Scene"?

A: Yes.

Q: Did the supervisors know of or instruct the investigators on "Freezing the Scene"?

A: The only time I ever saw anything like that was where a search warrant was conducted. The address on the house was different from the address I had on the search warrant so what we did, Sergeant Quiller was my sergeant at the time. So what we did to avoid suppression hearings we detained everybody and went and got another search warrant or get consent to search form to get consent to search. On this particular occasion we got consent to search. That's the only time I ever used that term or anything like that.

Q: During your time in narcotics did you or any other investigator or officer Freeze the scene in order to obtain a warrant?

A: I didn't actually obtain the warrant on that situation. I got consent to search. So to obtain the warrant no, but to get a consent to search yes and that's because the address was incorrect.

Q: What about as an investigator, did you receive any training in reference to Narcotics?

A: Yes.

Q: Where did this training take place?

A: When I was promoted to Investigator in 1995. I had approximately two weeks training. It was put on by the Narcotics section. We then went down to Forsyth for an additional three weeks of training specific to Narcotics investigations. Let me follow up those comments. From 1996 to approximately 2000 I was assigned with the DEA task force for four years conducting Narcotic investigations. While that did not fall under the Narcotics unit I was assigned to the special investigation section and attached to the DEA. I mentioned that to say that I continued Narcotic investigation training through out that time as well.

Q: During your assignment in Narcotics did the officers use a pay scale in order to pay informants for drug buys?

A: Yes.

Q: Can you explain the pay scale and what was it?

A: It was published by the SES Commander and it set thresholds for certain seizures. With regard to how an informant can be compensated. For example, if an informants activities led to a seizure of an ounce of cocaine. There was a scale in place that said that informant could be paid with in a range and not sure exactly what the range is by memory. I'm just guessing a hundred dollars to three hundred dollars.

Q: Did you feel that the Narcotics investigators and supervisors were adequately trained to be Narcotics Investigators?

A: No.

Q: Why didn't you feel like they were adequately trained?

A: I had the luxury of working with the DEA for four years and got to observe and learn how they conducted investigations. Their method of conducting investigations was a lot more thorough than our detectives were doing.

Q: Did you feel as if you were adequately trained to be a Narcotics Supervisor as it pertains to your job in Narcotics? (Handling the money room)

A: I felt like I had enough experience to adequately run the confidential fund. Obviously, I would have welcome specialized training if it was available.

Q: Was there pressure to produce numbers from the supervisors?

A: Not to my knowledge. When Lieutenant Gibbs drafted the Q-pay, I'm sorry performance evaluations; I think they changed names she got away from the numbers. She was looking at quality investigations. I'm no sure what was on the performance evaluations for the detectives during enforcement. But it related to search warrants and I think she was looking for substance as oppose to quantity. I'm not real familiar with exactly the wording on those evaluations because I was on an administrative assignment. My detectives did do enforcement when needed but that was not their primary function. So I didn't have that element in my evaluations.

Q: Can you explain the terminology known as 9 and 2?

A: I had never heard that term until it was made after Neal Street. I began researching all my memorandums and located a memorandum from Major Finley who was the commander of the unit at that time. He wanted to increase the number of arrest in the unit. I believe that memo referred to nine arrest and two search warrants per investigator per month. I filed that memo in my file and with in a few days Major Perlene Williams generated a memorandum to Lieutenant Finely stating more or less do not implement this program until we had a chance to discuss it with Duty Chief Brooks. I kind of loss touch after that memo as to what was decided on what was implemented. Again I was an administrative function. So I wasn't involved in those decisions.

Q: Did you know of any other teams that abide by, the 9 and 2 philosophy?

A: I not familiar with any team working under those guide lines. Like I say the information I got was based on what I heard in the media. I located the memorandum from then Lt. Finely which I don't know whether it was implemented or not. Like I said Major Perlene Williams asked him not to implement it within a few days of the memorandum.

Q: Did any supervisors or investigators interpret 9 and 2 as a threat, possibly in losing extra jobs or getting reassigned?

A: I'm not familiar with that. I thought the evaluations were tied into incremental raises. Since the raises had been frozen for five or six years, the evaluations really didn't have a lot of substance in my opinion.

Q: Can you explain what the investigative technique called **"knock and talk"** means?

A: Yes, probably best done by an example. If and investigator is given a lead sheet regarding drug activity at a specific address. The investigator begins researching the address. Pulling water bills, power bills, see who lives there, tag numbers on vehicles in the drive way, the tips, buys out of there, surveillance. If for some reason the investigator can't make any progress on the location. They may go up and knock and talk. It's a consensual interview. Sometimes you can gleam important information on those consensual interview. Sometimes you can see items in plain view, especially if you are invited in to talk. That's my interpretation of the knock and talk.

Q: Do you have any knowledge of incidents where a "Knock and talk" was used to gain access to a persons home and conduct searches for drugs without probable cause or a search warrant?

A: No.

Q: Did anyone ever complain to you about investigators or supervisors on Narcotics using Knock and Talk tactic to enter a person's home and perform illegal searches?

A: No.

Q: Can you explain what the investigative technique called "freezing the scene" means?

A: If you were inside a location. Be it a private residence or a private business and you were inside that residence legally and you seeing contraband. You can do what we call freeze the scene, make the scene safe. Make sure the occupants are in an area where you can monitor their activities. You do not search. Prepare and affidavit. Explain the affidavit that you are on the scene and you have detectives on the scene. You ask the Judge for permission to search the location. Based on what you have seen.

Q: Were you aware of any of the Narcotics teams, using the technique called "freezing the scene", and doing it in an illegal manner?

A: I don't recall any specific incidents. That's a common tactic. I'm sure it's used all the time. I would expect it to be used. Another example, we take a Fed Ex package containing a bale of marijuana. We conduct what's called a controlled delivery of that package to the address, to the recipient and prepare an anticipatory search warrant, allowing us in the house to secure the package, once it goes in. Once you are inside you see other items of interest in plain view. You can then apply for a search warrant to search the rest to the residence hints you would have to freeze the scene until that search warrant is signed.

Q: Were there any Narcotics team members that you did not trust or care for while in Narcotics? (who/why)

Q: Who was it and what was the disagreement?

A: Greg Junnior. I had known Junnior practically my whole carrier. We were in Zone Five together in eighty nine. Always got along with him, always thought he was an excellent officer. Had no suspicions of him what so ever. Approximately, a year before Neal Street, November of zero five he had begun using Alex White as an informant. I think Carry Bond, investigator Bond was the investigator for Alex White. In other words I think Bond signed him up. But Junnior from what I understand used him quite extensively. In November of zero five I ask Bond to run a criminal history on Alex White. The reason being when I came over to Narcotics in December 2001 as a sergeant the first thing I did was read the S.O.P (Standard Operating Procedure). The S.O.P was dated 1984 signed by Morris Redding. I called Dr. Clarke and I said Dr. Clarke you got a problem. You got a seventeen, eighteen year old S.O.P here. The S.O.P states that when you sign up and informant. You run a criminal history do a back ground check and that's it. That's the only background check you do for the life of the informant. I felt the need to institute periodic debriefing with the informant to make sure they were getting paid properly. To make sure they were doing what they were supposed to be doing. Make sure they had not been arrested and not told their controlling agent. On the agreement they signed there is an item on there that says basically they will not violate the law. They will only be around drugs in the presence of their controlling investigator. So when I talk to Dr. Clarke we started making movement in updating the S.O.P. We also decided that we would draft a separate confidential source S.O.P and a confidential fund S.O.P. All three of these new S.O.P's was in effect in November of two thousand Five. I asked Bond to run a criminal history on Alex White. We did so and we discovered a possession with the intent marijuana arrest. They indicated to me, when I say they Bond and Junnior indicated to me that they were not aware at that time that he had been arrested. Or if they were aware they thought it would be handled. For what ever reason I don't think they saw a problem with that. I told Bond I said his credibility is shot. He got a possession with intent arrest. He signed the agreement saying he wouldn't do that. He is violating the agreement. In my opinion he is no longer reliable and you need to deactivate him. Well Bond was upset. But he was professional and he said look he getting us good

seizures. I said I don't care I'm telling you. The guy is no longer reliable. So he said well can I talk to Lieutenant Browning? I said absolutely. I suggested that he also talk to the D.A. (District attorney). Because the D.A. has got to prosecute the cases this guy makes. So they did so. Bond left my office. About ten minutes later Junnior comes in closes the door, and he was irate because, I wanted to deactivate Alex White. I had never seen that side of Greg Junnior before. I told this to the F.B.I. (Federal Bureau of Investigation). I said I was shocked because I had always had a good with the guy. I told them exactly what I told Bond. I said that my opinion is no longer reliable. You need to deactivate him. So they went to talk to Lieutenant Browning and they sought the opinion of the D.A. Based on what I knew I was kind of out of the loop then. I had already given my opinion. They met with Rand Csehy, Fulton County prosecutor. Who as a foot note later represented Junnior in criminal hearings? So Rand Csehy and this is information that was related to me by Bond. Set up some stipulations that Alex White had to meet and not be compensated for. If he met these guidelines then Rand Csehy said he had no problem using him as an informant in future cases. So they ultimately used him again.

A: An investigator would come to me and fill out a disbursement form. I don't know the A.P.D (Atlanta police department) number but it's an A.P.D standard disbursement form. The disbursement form included the cash amount that I would give the investigators. The investigator would sign the form stating that he received the funds. Then I would sign the form stating that I had given him the funds and then we would date the form. The disbursement was essentially an I.O.U it was as good as money. I stored that in the safe along with other disbursement forms from other detectives along with the cash. Over a period of time the investigator would use a portion of that money, or possibly all of that money. In which time they would bring the vouchers that they filled out documenting the expense. They would bring those vouchers back to me. The vouchers would have to be accompanied with a offense report and if items were purchased with the money receipts were practical. Then I would take those vouchers add them up, and they would have to

give me the difference in cash or if the vouchers totaled the amount they signed out. Then I could clear the disbursement with all vouchers. On a monthly basis I forwarded a report to the fiscal unit of all expenditures out of the confidential fund. That was part of the regular process. They would then cut me a check on the Narcotics buy fund account for the amount of vouchers that was used on the preceding month. So if the detectives in the department used five thousand dollars in cash from the confidential fund. The fiscal unit would cut me a check for five thousand. I would go to the Wachovia bank and deposit it. So I had a deposit slip that I kept with my paper work. They would immediately cash the check and hand me five thousand dollars in cash. I would take it back and I would enter it into the log book and put it in the safe. So that's how we replenish the fund. If there was an informant that was paid out of those vouchers, the investigator I would give them the informants file and they would document the expenditure in the informants file. I would not do that for them. I would have them do it and that way at a later date if they wanted to use that information in their affidavits, stating that this informant made thirty seven buys for the Narcotics unit in between certain days. That information was available. So that file was part of the buy fund process.

Q: Was there any inspections done by your supervisor to insure that the money was distributed properly?

A: My supervisor would have been a Lieutenant. They typically did not inspect the fund. Al though they were free to do so at any time. The fiscal unit would conduct audits. The inspections unit did maybe one or two inspections, while I was in charge of the fund. Sergeant Sparworth also assisted me with the fund and had access. He primarily handled the transactions on evening watch. Since he worked evening watch so there were two of us, so that the fund would be accessible sixteen hours a day.

Q: How did you insure that supervisors and investigators were using city funds for their investigations and not for personal use?

A: Well I think the safe guard was in place I don't know if it was being implemented. Number one the witness to the expenditure the voucher has places for four signatures. The investigator that makes the expenditure has to sign that voucher certifying that it was used properly. His or her witness has to sign the voucher. Saying it was used properly. His or her sergeant signs the voucher saying that it was used properly. Then if an informant was paid the informant would sign the voucher, stating that they were paid for services. So there could be as many as four signatures before the document got to me. So in essence there are three or four levels that are oversight. Obviously if all three or four individuals are complicit in any kind of illegal activity it could very easily be hidden. I need to mention that my job was an administrative function. So I did not go out into the field to monitor undercover buys. It just wasn't practical with the rest of the responsibilities that I had.

Q: Were you aware of any informants that were used by a supervisor or investigator that was not signed up to be an informant?

A: Yes, they would use them from time to time to establish reliability. To my knowledge were not compensated for their services. I think it was strictly a process to insure that the informants were doing what they were told and they could be trusted.

Q: Was there a system in place to insure that an investigator or supervisor was not allowed to Pad Vouchers, have informants sign blank vouchers or use funds for reasons personal reasons?

A: As I mentioned in the previous answer. You got three or four levels of oversight there. By the time it gets to me. If it's hidden by those individuals I don't know if I can detect it.

Q: Do you have a copy of the memorandum that Finley typed up in reference to the nine and two quota?

A: Not with me but I think I can get you one.

Q: Previously in the interview we asked you did you feel that the investigators were adequately trained and you said. Based on your experience you have worked with DEA (Drug Enforcement Agency) and after seeing how they conducted investigations. You realized or you felt that the way we were doing things were not adequate and they could be better prepared and better trained. Based on this knowledge and knowing what you knew. Did you at any time attempt to implement any additional training or did you speak to a supervisor or anyone above your chain of command and bring this to their attention?

A: Yes, as I mentioned before I found that the written directives were extremely lacking and didn't provide for the proper handling of informants. I didn't feel like it provided for the proper handling of informants. So I contacted Dr. Clarke in planning and research. I also notified Lieutenant Finley who was my Lieutenant at the time when I came over that I was doing that and he was supportive. I felt like certain things needed to be done that weren't included in our S.O.P. This was based on my experience at D.E.A. One of which like I mentioned were debriefing of informants as appose to signing them up and then never doing a background again. So, some of the suggestions were implemented. One thing that I would have liked to have done I don't know if it was practical with the volume of cases our guys were doing. I thought we were extremely lacking in our case management. What I mean by that is when I was at D.E.A. I wanted to open a case on a drug target. I had to write a case initiation report. Submit that report to a supervisor.

The supervisor approved it and said yes this a good investigation lets move forward. I would then meet with the U.S. attorney and get a U.S. attorney on board. A U.S. attorney would come and said yes I will prosecute this case if it comes together. So then and only then I would pull a case number and begin a file. Obviously we don't do that here. Ever quarter whether anything is done on that case or not I had to do a case status report. "Where is this case, is it moving, is it stagnant, what's going on with it". Every quarter it's put in the case file and addition any other reports you generate. Controlled buys, informant buys, surveillance those types of things are put in that case file. On down the road every arrest, the arrests are in the case file. Judicial proceeds, every proceeding you attend. You write up a summary of that judicial preceding. Whether it was a bond hearing, a plea agreement, a trial, what ever you document that in a report and it goes in a case file. The person is sentenced that report goes in the case file. They received fifteen years to serve by judge so and so on such a such a date for violation of what ever conspiracy to distribute controlled substance whatever. That goes in the case file. Person goes off to prison and he has filled an appeal. Do a summary stating that the case is under appeal that goes in the case file. At some point in time the appeals are exhausted. You can destroy the evidence, the drug evidence. That goes in the case file. You have a form for destruction of evidence and then upon completion of all those task. You do a case closer report. It goes in there a supervisor signs off on it. The case number is closed and it's filed in the case closed files and you move on. Obviously we don't do stuff like that.

Q: So other than the way we handle the S.O.P. on informants and the case management. Were there any other issues that you felt were obviously flaw?

A: With regard to controlled deliveries. We were doing a lot of controlled deliveries where we would take custody of a package containing contraband from Fed Ex or UPS. We would then assume the role of a delivery man and deliver those packages to the recipient in hopes of making a case. I began to notice that a standard controlled delivery went something like this. You got the package from the company. You put K9 on it the K9

alerted you wrote a paper. You open the package. You found the contraband. You closed it back up. You identified the recipient address and you went out and did pre surveillance. You deliver the package somebody signs for the package. The package goes inside the residence and after a period of time with your anticipatory search warrant. You make entry. You secure everybody inside and you arrest the people that you think are involved with the package. That is not a good case. Because you can have someone who signs for a package for a family member or roommate that has no idea what's in the package. They open the package up and say ah contraband. Then here comes the team busting through the door, it's not a good case. So I suggested and as far as I know they were doing it but there again I didn't go out with the team. So I don't know what they were doing. But there's several ways you can connect people to that package. You can take the contraband out and spray it with an invisible powder, and aerosol powder. It comes in an aerosol can. Put the package back in the box, seal it back up and deliver it. It goes inside somebody opens it. You can tell who handles the package. They will have the powder on their hands. The powder is seen with an ultra violet light. When you make your entry you come in and you pull out your ultra violet battery operated flashlight and everybody who has had their hands on it you can connect to the package. You also have to wait and amount of time to give a prudent person a chance to respond. If you open the package and there is a twenty pound bale of marijuana. What would a prudent person do? They would probably call 911. So once that package goes in you want to wait a reasonable amount of time. Use you tools at hand the aerosols and those kinds of things. So I suggested to bolster our cases make them stronger on controlled deliveries. We start doing stuff like that.

Q: Did you ever become suspicious of how redundant some of their write ups were? Not the specifics on the location of the buy. But the prequalification's in terms of the informants?

A: No, I was not suspicious. They would use what I call boiler plate language, Language consistent from warrant to warrant as a preamble to the meat of the warrant. I kind of zeroed in on the meat of the warrant. Was there undercover buys made. Who made them? Identifying the people inside and were they named in the affidavit and that kind of stuff. So the boiler plate language really didn't stand out. I was assuming it was true.

Q: You mentioned that you knew that there is a legal way to put third party information into a search warrant. Meaning that if an investigator had another investigator take an informant out to make a buy, but they gave the information to an investigator who was not there and they could write their search warrant and legally serve it?

A: Well, you can put it in your affidavit. But you have to document exactly like it happened. Sergeant Griffin monitored the confidential source. Came back and generated a report, a buy report. I used the information off of his buy report and included it into this affidavit and then it's up to the judge. This is my opinion; it's up to the judge to put the appropriate amount of weight into that search warrant with that information. He may say well you weren't there so I'm not going to look at that but look at the other stuff in the affidavit. Well if there is nothing else in the affidavit then he might not sign it. But I think you can't have too much in there and there again its up to the judge to put the appropriate weight to the buy that the other investigator made.

Q: My question is do you recall or was there any type of training. Either formal or informal from our supervisors or seasoned investigators to new investigators to communicate how they could write these warrants. As oppose to writing information in there saying that they were there. When in fact they were not?

A: I was very fortunate when I got promoted to detective. I had about five weeks of training specifically for this. Three down at Georgia public safety training center I did not see that happening while I was there as a sergeant. I don't know that it didn't happen. But we went in 1995 as a unit. It was about twenty five of us that went down there and we did everything from covert surveillance to dynamic tactical entries at the mock village. Search warrant affidavits, C.I. (confidential informant) buys, everything was covered. I'm fairly confident that the unit did not go as a whole during the six years I was there. Know that not to say they didn't go to training on their own because I know some did. I don't know what exactly they had. But I would venture to say that the majority of the investigators that are promoted and coming in Narcotics don't have any formalized training other than what they may have received in the basic recruit school and F.I.T (Field investigative team) team training. Now I'm not familiar with the curriculum in the F.I.T team training but I understand there is some search warrant subject matter that's discussed. I don't know to what extent. I don't know if it covers what we talking bout here. But as far as I know there is no formal school when a new detective comes in that they have to attend.

Q: Would you like to add anything to your statement at this time?

A: Yes. I would like to preference my comments by stating that I have been with the city over twenty years. This is the first time I have ever been accused of any wrong doing. I got a clean O.P.S. (Office of Professional Standard) history until know. I would hope my record speaks for itself. Especially the past six or eight years I have been placed in some of the most sensitive assignments in this department. Monitoring the buy fund, informants and controlling the department's drug evidence. A lot of people don't realize it but right now I got about a hundred thousand pieces of drug evidence under my custody and control. I have to go to every drug trial in Fulton superior court to testify. So you can imagine the amount of time it takes to document all that movement of drug evidence to and from the lab and those type things. We never had a problem missing evidence. My integrity has never been called into question. I could give you a list of people from Deputy Chiefs on down that I think can vouch for my integrity. One thing I find ironic. In May of zero seven Chief Pennington transferred everybody out of the Narcotics unit. I understand why he did that. I was supportive. However, I was asked by a Lieutenant Sheffield and Lieutenant Trivelpiece to stay on and continue to run the buy fund and the informant program till they could get somebody trained. The same time I had been transferred on paper to the property unit. So I had responsibility down there as well. So essentially I was working two jobs in two different locations. I stayed on as the confidential custodian until October. So from May until October I stayed there working two jobs maintaining the funds with the new investigators. So I felt like that was a vote of confidence and if I was obviously not doing something right I felt like I would have been shipped out then with everybody else. I was disappointed that I didn't get rid of that work load but I was also very appreciative that they had confidence in me to stay there and extra five or six months. As I mentioned earlier I worked closely with the F.B.I. I provided numerous documents buy reports, offense reports, search warrants, to them which lead to the successful prosecution of Junnior, Tessler, and Smith. I have got copies from the fiscal unit specifically Buffy Grey and on the latest one. The first line in her report is I have done an outstanding job keeping track of the fund. I can provide that if

you need it. When I took over the fund in two thousand and one it was in disarray to say the least. We had disbursements going out to Deputy Chiefs and Majors. They were clear with no documentation. I had one where a lieutenant purchased a retirement plaque for an investigator. So I had to get with Janet Anderson in fiscal we had to resolve those issues. I got all that mess cleaned up. Simultaneous with that I worked with planning and research we got the confidential fund S.O.P put in place, which I would venture to say I drafted probably ninety percent of the language in that S.O.P. My understanding of the S.O.P is money can be used for three things. Purchase of contraband, payments to informants for information or services and the third one which is very subjective certain investigative expenses and that where we go to be careful. In evaluating I think everyone of those instances have to be weighed on their own. In what I mean by that if I come to you sergeant Stricklin and sergeant Griffen and say detective Hammock voucher out three mixed drinks, a table dance, and a cover charge at the Cheetah two weeks ago. You guys are going to say whoa. We need to look into this. But then you read the offense report and say investigator Hammock went to meet with a drug target to further a drug transaction and the target wanted to meet at the Cheetah. Detective Hammock used forty five dollars in city funds to further that investigation receipts were not obtained for obvious reasons. Then that's what I mean by each individual case is subjective. We had an occasion where sex crimes came to us. They had four females that were victimized in a night club with a date rape drug and were sexually assaulted. We had a target and employee in the club. So we sent a team up there three or four consecutive Friday nights. They had to voucher out valet parking, cover charge and I always told them a little trick on ordering drinks. Order clear liquor, Gin and Tonic. Go in the bathroom dump it out and fill it with tap water and come back and sit down. No body will be wise keep your glass full of tap water they wont keep setting seven dollar drinks in front of you. So I just wanted to reiterate that that is a very subjective interpretation of particular part of the S.O.P and you just can't make a blanket decision on that expenditure without researching everything that goes with it. I told you about a disagreement I had with Greg Junnior in de-activating Alex White in November of 2005. Again I never saw that side of Greg Junnior. I was shocked. A few months after that I had to go to a trafficking cocaine trial

in Fulton County Judge Bedford courtroom and I forget which one on that team was the lead agent. But it was somebody on sergeant Stallings team who was the lead agent, I can't remember. But I had to go testify that I took the drug evidence to the lab. They got a guilty conviction. It was a pretty significant trafficker that was tried. The next day the ADA (assistant district attorney) called me Shepard Orlow called me. He said hey, can you have somebody for all of Pete Stallings team in court at the sentencing hearing. I feel like judge Bedford will give a stiffer sentence if these investigators show a vested interest in the case and show up at the sentencing hearing. I relayed that information to sergeant Stallings and he assured me that he would have one or more of his team at the sentencing hearing. A week or two later I was talking to Shepard Orlow I said how did the sentencing go. He said well it went alright but nobody from Stallings team showed up. So I kind of got upset about that. I work with the ADA very close and I got a good relationship with them and I was disappointed to say the least. So I went to the lieutenant Gibbs and I said this is what I got. I said even though the sentencing was on their off day I think they could have had one person show up at least. So Lieutenant Gibbs was not happy either. Well apparently she approached one, or all, or some, or just Stallings I don't know. But I was walking by their area in the office one afternoon shortly after that. They were having a team meeting and Greg Junnior called me over there and his words to me in front of every body. Why do you want to pimp us out in front of the lieutenant. So that kind of related to that earlier encounter I'm thinking something isn't right with this guy because we've always gotten along. So based on those two occurrences he didn't have much to do with me I didn't have much to do with him. I think it's important to know that the confidential fund wasn't my only duty. Again I was in charge of the whole department's drug evidence. Which beginning in two thousand and three I made efforts to move to property control. Nobody wanted it as you can imagine. Its very labor intensive it's a huge responsibility. So in two thousand three I got with Dr. Clarke I used my friend the calea standards and said look. Safe guarding the department drug evidence does not belong under the control of a Narcotics enforcement unit, huge conflict of interest. We hired consultants to come in and study the property room. I went down there and asked them to include the drug vault. Same thing paid them forty thousand

dollars to tell the chain of command to tell them what I told them two years earlier. Huge conflict of interest, so I had all that going on. The confidential fund, all the confidential source files I had to track all that. I was in charge of the under cover vehicle fleet, Lead sheet data base. In addition to budget preparations, office inventory, requisitions and purchase orders. So I want to make that point. I just didn't set in my office all day and wait for people to bring me vouchers.

Q: Did you know of any other supervisors who had issues with Junnior similar to yours, or knew of his changes in behavior?

A: No.

Q: What about any other investigators?

A: No one came to me I had no first hand information that people had a problem with Greg Junnior. After Neal Street I think some people came forward and said hey they were not comfortable with him. I don't know that for a fact. One thing I did notice after Neal Street we've racked our brain. I said we, me and Lieutenant Gibbs and Major Davis, Chief Andreson we've racked our brains to try and figure out were there any indicators. In looking back there is one thing that kind of stands out to me know. That didn't stand out to me at the time. Stallings team worked evenings and for the most part Sparworth team worked evenings. So I never inter acted with them while they were out doing investigations. I only interacted with them during an administrative capacity in the office. But periodically I would ask to go out and help out but very, very seldom. One thing I did notice and I brought it to the attention of the F.B.I., and of coarse me and Lieutenant Gibbs had talked about it. Trying to find out is there something we missed. When I would go home in the afternoons at least once a week sometimes more I would walk across the third level deck to my car. I would typically see Greg Junnior, Bruce Tessler and J.R. Smith standing out beside a patrol car. Which I later learned was a car that they exclusively used for themselves. I think we had two patrol cars assigned to our

unit for search warrant purposes, but they would be geared up in raid gear. So looking back on it I compared it to when I was a detective. The only time I had on raid gear was when we met for a search warrant or trained. Looking back these guys were suited up in raid gear by their patrol car and at the time I thought they were gearing up for a warrant. But I don't know now that the amount of time I saw them doing that matched up with the amount of search warrants they were executing. Looking back that kind of look suspicious to me. They even had in red letters on the front fender Narcotics, like three inch letters. There a gain I thought that's the vehicle they are using for search warrants. Cause that's what we got it for, for visibility when your making you dynamic entry. That stood out to me.

Q: Did anybody else notice anything suspicious?

A: No

Q: You are aware that this is an ongoing investigation and you are forbidden to discuss details of this investigation with anyone other than your attorney or representative?

EMPLOYEE STATEMENT

EMPLOYEE: Nathan Lucas OPS # 09-I-0206-SOP

A: I would use a confidential informant as a tool, if I got information from a tip line or if I gathered the information on my own to confirm or deny information that I processed or received. I would utilize my confidential informant to confirm what I thought my suspicious were. My CI's were used as an investigative tool. Some CI would call you and tell you that they had information about certain places, I would go out and place those locations under surveillance and counter check the information that the CI was giving me. So my process for utilizing a CI about a given location, first if the information came from a CI I would take the information and go out and do surveillance on the location for myself. If it was information we received from a tip line or I believed that illegal narcotics or drugs were taken place, and then I would use my CI, if I couldn't go in and make a purchase, I would use my CI to go in and make a purchase

Q: Would you always search the informant before they made a drug purchase?

A: Yes, I would search the informant to make sure that they had no drugs on them, I would search them to make sure that they had no currency on them or any other contraband or to make sure that they didn't have anything that would be detrimental to myself or any other members of my team that was assisting me with the operation.

Q: Would you always search the informant after they made a drug purchase?

A: Yes. After the drug purchase was made I would go with the CI to see whatever the target of our investigation was, whatever was purchased, I would received that from them and then I would check to make sure that they had nothing else on them.

Q: Did you always see the informant go to the address to make the drug purchase?

A: I can't remember or say that I specifically watched them, it would depend on the situation was on the scene. If I could get there without causing any alarm to myself or causing any danger to my CI, in most instances I was able to watch the CI, but in some instances it may have been difficult, it just depends. It depends on what the situation on the scene was.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: Was it common to get a confirmation buy prior to executing the warrant?

A: I can't remember if confirmation buys were always done, I do know that on some instances on my search warrants, confirmation buys were made. I can't say that every drug warrant I did, that I did a confirmation buy.

Q: Were conformation buys encouraged by your supervisor?

A: No, not in all cases

Q: Have you ever used informant Alex White to make a drug purchase for you?

A: I can't recall if I used Alex, I know that if I did use Alex it was early on when I first got to Narcotics, but I don't think that I dealt with him a lot.

Q: So do you ever remember using Alex?

A: I'm sure I used him.

Q: Approximately how many times did you use informant Alexis White to purchase illegal drugs for you?

A: It could have been more than five but I just can't recall a specific number of times that I used Alex. It was early on when I got to Narcotics in 2004. When I started to develop my own CI's I really didn't use Alex White.

Q: Did you ever allow informant Alexis White or any other informant go and make drug buys on their own?

A: Not while being under my direct supervision, no.

Q: How were your informants paid for making a drug buy for you?

A: Using city issued funds from the CI funds.

A: Yes, I've heard of padding vouchers.

Q: Have you ever heard the term "Cushion you're Buy"?

A: No.

Q: Have you ever been instructed or encouraged by your supervisor to "Pad Vouchers"?

Q: Have you ever written a drug voucher in a way so that you could get extra money for you or your informant?

A: No.

Q: Have you ever used your personal vehicle to make a drug buy, before or during work?

A: I'm trying to remember, but I think I have had to at one point in Narcotics and that was under the direction of Sgt. Stallings because at one time we had 1 vehicle for 9 detectives.

Q: To your knowledge, other than Sgt. Stallings were any other supervisors aware of you using your personal vehicles to make drug buys?

A: Not that I was aware of.

Q: Did you use informant Alexis White to purchase drugs from 1247 Simpson Road on September 6, 2005? (Case # 05-249-1926)

A: (Interviewee chose to step outside with counsel) I can't specifically remember the specifics of that case but if the police records indicate that I did, then I did. (Inv. Lucas was allowed to review the report) I still don't remember that specific incident and I also noticed that my property sheet is not attached to the report, so I don't know if another investigator filled that out for me or not.

Q: Is this your handwriting?

A: Yes sir, but I still have no recollection.

Q: So you're saying that you do not remember him making the buy, the police report says so but you don't remember?

A: No sir. I don't actually recall that specific case.

Q: According to these documents, does it appear that you used Alex White. Do you know his CI number?

A: I don't remember his CI number by hard, but like I said if the document say that's what happen then that's what happen. Those are my signatures and these are my police reports.

Q: Is there any reason why former APD Investigator Gregg Junnier would say that you didn't make a drug purchase from 1247 Simpson Road on September 6, 2005, but instead he did, and he gave you that warrant location as a "Hand-Off"?

A: I don't know why, I can't speak to why Gregg Junnier would say something like that. I can only speculate that he was trying to save his own butt, as it relates to the entire Neal Street incident. But

as far as my search warrants, I would utilize another investigator's information as an investigative tool. I would have gone and place the place under surveillance myself. Specifically what I did, I put in police report and sign the documents and payment vouchers and things of that nature.

Q: Have you ever made a false statement on an affidavit or police report, to obtain a search warrant or an arrest warrant?

A: No sir, not that I can recall.

Q: Was it common practice to have one investigator to make a drug buy and give the information to another investigator so that they could draft the affidavits and search warrants as if they conducted the drug buy? (This practice is known as a "Hand-Off")

A: I have seen it in our unit done under the direction of Sgt. Stallings, but it was done and given to the investigator as an investigative tool. It would have been up to the investigator that received that information to get out and do his own investigation and verify the information or that the information came from the CI.

Q: So making it clear as it pertains to you, have you ever accepted a hand-off from another officer or investigator in order to obtain a search warrant for drugs at a particular address or location? Meaning that you just took the information, you didn't go out to make the buy, you didn't use the CI. You just took the information, went to the judge and swore out a warrant saying that this is what you did, but you didn't do it in order to get a warrant. I'm asking you have you ever done that?

A: Not that I can recall.

Q: Have you ever given a hand-off to another officer or investigator and they used the information to obtain a search warrant for a particular address or location?

Q: Are you familiar with the term "Nine and Two", within the Narcotics Division?

A: Yes.

Q: Did this term only apply to Team One?

A: No, if I recall that was the standard that was set for the unit, 9 arrests and 2 search warrants per investigator, per month. I don't know where the tem came from, but I went to narcotics in April of 2004 and when I got there that was impressed upon me by my immediate supervisor, which would have been Sgt. Stallings.

Q: Was there anyone beyond him any Lieutenants or higher?

A: Not that I can recall, I do know that a standard was set or an average was set for the unit and in order to meet QPAI the watch average had to be adhered to in order to get an effective rating.

Q: So what happen to the investigators that didn't meet the "Nine and Two" standards, what punishment was there?

A: I don't ever remember there ever being an adverse punishment, because some months I certainly fell under, but there was never any type punishment. I was never told that I was going to be kicked out of the unit; I was never told that my off days would be changed.

Q: Are you aware of the tactic "Knock and Talk"?

A: Yes.

Q: Explain exactly how the "Knock and Talk" tactic worked?

A: If we had information of specific information where activity was going on inside of a location and if we had exhausted all other means to verify the information, then we would go to the location and knock on the door and just talk with the occupants inside. Again that was another investigative tool, sometimes it was effective and sometimes it was not. Sometimes we would just go the door and tell people that we were given information that there was criminal activity taking place at this

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: Not that I can recall, generally if we went to a location for a knock and talk, there was a reason that we were there. We had some type of information that would lead us to believe that criminal activity was taking place. I mean we just didn't ride down the street and jump out and say, "Let's go knock and talk this house." There had to be a reason why we were in that area and do a knock and talk on that house.

EMPLOYEE STATEMENT

EMPLOYEE: Mason Richard OPS # 09-I-0206-SOP

A: Major Finley asked Inv. Burns and I to assist narcotics who were unable, incapable, or unwilling to obtain search warrants of their own. We were asked to make drug purchases for them either by ourselves or with informants, and that would allow narcotics to have enough search warrants to occupy their time. I think I did between seven, eight, or nine search warrant packages for Lt. Finley at the time. I was own my own as far as finding locations, it didn't matter where I was or if I made my own buy or used an informant. I do believe most of them were with an informant. I would go to a location, I would photograph it, I would make a purchase, I would turn the drugs in, I would do the buy report. I would write the search warrant and get the search warrant signed by a superior court judge. I would complete a raid plan, minus the names of the entry personnel. I would put it all in a package, a little two hole punch aluminum clips on it and I would give that package to Lt. Finley. It contained everything necessary to execute the warrant because it was already signed.

Q: Prior to or during this assignment, were you trained how to write a police report?

A: Yes, in the academy.

Q: Prior to or during this assignment, were you ever trained how to write an arrest warrant?

A: I believe that was in the academy too.

Q: Prior to or during this assignment, were you ever trained how to write a search warrant?

A: In the investigator's class, Lt. Mike Smith taught us how to write a search warrant.

Q: Prior to or during this assignment, were you ever trained how to handle evidence?

A: Yes.

Q: Prior to or during this assignment, were you ever trained about Police Integrity?

A: Through the academy and every other training.

I have read ~~or had read~~ to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: Prior to this assignment, were you ever trained how to use a confidential informant?

A: I remember bits and pieces of it; they touched on it during the investigators training. I don't recall where the bulk of the training came from, but yes we did have some training.

Q: Did you feel that you were adequately trained to go out and make drug buys and write search warrants?

A: On a very basic level, yes. We were taught the minimal that was necessary, and we were taught the proper way to do it. From there we could elaborate and go into more specific and detailed search warrants.

Q: During the assignment, did you ever use a confidential informant?

A: Yes.

Q: Would you always search the informant before they made a drug purchase?

A: Prior to and after the purchase.

Q: Did you always see the informant go to the address to make the drug purchase?

A: Yes I would show the informant the address and then watch them approach the location and then return to me.

Q: Did you ever use Alexis White as a confidential informant?

A: No.

Q: How were informants paid for making a drug buy for you?

A: Cash from city money, a voucher was filled out and the informant was paid.

Q: Would you always search the informant before they made a drug purchase?

Q: Would you always search the informant after they made a drug purchase?

A: Yes sir, pretty much, I mean I'm not going to say all the time but I would say 95% of the time, yes sir.

Then you would proceed to knock on that location and ask for the owner. Once the owner or the person that has a right to be at that house. You would inform them that you received reports of possible of illegal narcotics activity are taking place within their residence. After speaking with them and identifying yourself as an Atlanta police officer you would ask for consent to search their premises while informing them that at any time they have the right to stop the search and also advising them that they do not have to give consent and then you would present them a consent to search form and also read out to them with the form is stating and that's basically it and they would sign off on it.

A: Can't think of any right off hand.

Do you understand this?

(ADDENDUM)

Q: In regards to the "Nine and Two" standards, were there times when investigators didn't meet the qualifications?

A: No, as far as I know everybody met the standards.

Q: On page seven of your previous statement, you admitted to allowing informants to go and make drug buys on their own. Can you explain what situations or circumstances did you allow an informant to do this?

A: the situations would be where you would pull up into a parking lot and the informant get out and walk up to the door and if the apartment is upstairs, he would walk upstairs and enter into the apartment. After he entered the apartment they would close the door behind him while I remain outside. I was always in the vicinity.

Q: You also mentioned on page seven that you have seen informants sign blank vouchers. Which informants did you see doing this practice and who was the controlling officer or investigator.

A: I can't remember what specific investigators but I do know that I have seen investigators with pre-signed vouchers. Also I cannot say if the investigator had met the informant prior to me seeing that the vouchers were signed.

Q: If you could remember which investigators you saw with blank vouchers would you tell me?

A: Yes.

Q: Do you recall any type of physical descriptions of the investigators?

A: Yes, Gregg Junnier was one of them but I can't say for certain. It has been sometime, almost three years.

Q: Are you aware that a "Hand-Off" is to have one investigator to make a drug buy and give the information to another investigator so they could draft the affidavit and search warrant as if they conducted the drug buy?

A: Yes.

Q: On page ten of your statement, are you saying that you provided hand-offs to members of your narcotics team, but you did it because you were instructed by your supervisor to do so?

A: Yes, my supervisor would ask me how many buys that I had made and he would suggest giving some away to another investigator, who may be short for that month.

A: No, and my reason or at least the way it was explained to me that any buys that I make that I (Inv. Smith) could provide that information to the investigator and that they could write up a report stating that I (Inv. Smith) went out and made this buy and provided the details and description of that purchase.

Q: Who was responsible for explaining this information to you?

A: My supervisor Sgt. Stallings.

Q: Did you ever see any of the warrants or write ups that you provided information for?

A: No.

Q: About how many warrants would you say that you provided information for another investigator to execute?

A: I really can't recall how many, but I remember one instance where Sgt. Stallings asked me how many did I have and to check with Inv. Holly Buchanan to see if she needed any warrants, but I can't recall ever following through with that.

Q: When this request was made, were you familiar with APD's policy in regards to obeying an unlawful order?

A: Yes, but I did not feel that it was unlawful because the officer once again would have to provide a reference or credit to me for providing the evidence for the search warrant or probable cause.

I was thinking that by me being one of the only two blacks who could actually go out and make drug purchases and provide that information to any investigator who received the information stating that I (Inv. Q: Prior to or during your narcotics assignment, were you ever trained how to write a search warrant?

A: We had some classes on handling of CIs, but they were all outside training. I don't recall any of them being taught by the police academy, but I had some classes yes. I want to make that clear.

Q: Did you feel that you were adequately trained to work as a Narcotics Investigator?

A: We were trained, but I don't know about adequate. We didn't have adequate equipment, we didn't have adequate resources, but I guess that would be blanketed in as training. We had training classes, I'm not going to sit here and say that we didn't, but in my personal opinion I don't think that it was adequate enough, especially, for new investigators coming to narcotics. So I really don't know how to answer that one Sgt, I would say yes we were trained, but adequately no.

Q: Did you feel that the rest of the team was adequately trained to work as Narcotics Investigators?

A: No.

Q: Is there anybody in particular?

A: No, I can't single anybody out.

Q: During the course of your police career with APD, have you ever used a confidential informant?

A: Yes.

Q: Explain how you would use an informant to make a drug buy, in order to obtain a search warrant. What steps would you take during this process?

A: First thing the informant would have to be signed and registered with the city. In narcotics we worked off lead sheets, that's where most of our narcotics information came from. I would contact the informant, meet with them, give them the address, search them to make sure that they don't have nothing on them. Brief them on what we think is going on at the particular address, and try to give them as much information as we can so that they're not going in blind. Give them the city issued funds and send them to the location. If possible, watch them go, a lot of times you're not going to see them go to the door. They would return and turn the evidence over to you. Search them again to make sure that they weren't withholding anything. Then you would debrief them on

what they saw or heard. Ask them the color of the house and compare to see if there was anything different than what we gave them. The suspect's description, size of the house or anything you could get to put in the search warrant and write it up to help us.

Q: Would you always search the informant before they made a drug purchase?

A: If not me, another investigator would. I mean the informant would be searched.

Q: Would you always search the informant after they made a drug purchase?

A: Yes.

Q: Did you always see the informant go to the address to make the drug purchase?

A: Like I said before, a lot of times you couldn't watch them go all the way. You had to rely on their information, but I always made it a practice to familiarize myself with where they were going before I send them in there.

Q: Was it common to get a confirmation buy, prior to executing a search warrant?

A: Sometimes we did, and sometimes we didn't.

Q: What were you encouraged to do by your supervisors?

A: Well I can remember when I first started working with informants and doing search warrants that it was a practice to do a buy and then a follow up confirmation buy. A lot of times we got away from that, we would have lead sheets coming in and with the requirements to do arrests and search warrants; we didn't have time to do a second buy or confirmation buy. So we had the numbers we had to make for arrests, and we had the numbers we had to make for search warrants. So as far as time wise, we kind of got away from that.

EMPLOYEE: Inv. Paul Vignola OPS # 09-I-0206-SOP

Q: How did Alexis White began to work for you as a confidential informant?

A: He was signed up by either Gregg Junnier or Cary Bond. I'm not sure. So through Gregg, I would use him sometimes. If the informant I was using at the time weren't available or if we had a lot of lead sheets that we needed to clear, but I only used him a few times.

Q: Approximately how many times did you use informant Alexis White to purchase illegal drugs for you?

A: It was less than ten.

Q: Did you ever allow informant Alexis White or any other informant go and make drug buys on their own?

A: No, the few times I used him I was there.

Q: How was informant Alexis White paid for making a drug buy for you?

A: Most of the time, I mean the times that I used him I would let Gregg pay him because he was the handling officer. I would use, sometimes Gregg would use his voucher money or I would use my own voucher money, but I would let him handle the actual paying of Alex.

Q: Was it common to have Alexis White or any other informant to sign blank vouchers?

A: No I never did that, now I'm speaking for myself.

Q: Are you familiar with the term "Padding Vouchers"?

A: No, not really.

Q: Have you ever heard the term "Cushion you're Buy"?

A: No.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: Did you use informant Alexis White to make a drug purchase from 2020 Alison Court apt B-8 on March 04, 2004?

Q: Have you ever accepted a hand-off from another officer or investigator in order to obtain a search warrant for drugs at a particular address or location?

A: If you're going to use the term "Hand Off", no.

Q: Have you ever given a hand-off to another officer or investigator and they used the information to obtain a search warrant for a particular address or location?

A: Using the term "Hand Off" as you explained it to me, no.

Q: Why don't you tell me in your own words, if there is something that you might have done or something that you might have accepted from another investigator?

A: The only thing, I'm going to try to answer your question. It is a practice and a legal practice to get a search warrant, let's say I take an informant out or I make a personal buy and Cliff is my partner. When I get the information and turn the drugs into property, I can give him the information and that would be called a third party or a other party clause. I'm saying that this house is selling dope, its incumbent upon him to write the search warrant saying "I received information from so and so. He could write it up and not being there. You see what I'm saying, that would be an other party clause or third party clause.

Q: So you're saying that you have given information to other investigators about drug locations?

A: No I haven't, I was just explaining to you, but I've never done that. I may have given somebody a search warrant and said hey look this place is selling dope and I've gotten one buy or two buys out of there or whatever. Now, I'm not going to baby sit Cliff and say write this warrant and look over his shoulder. These are narcotics investigators and I expect them to write it the way it should be written. That is that I received information from Inv. Vignola that this house is selling whatever.

Q: So by the same token, if another investigator give you that information, its your responsibility to write the warrant saying that you got the information from somebody else and not that "I took the informant to the location".

A: Right, right, exactly.

I have read or had read to me the above statement and I swear or affirm that it is true to the best of my knowledge and belief.

Q: So just to be clear, you have never taught or given anybody advice on how to do a "Hand Off"?

A: No.

Q: Are you familiar with the term "Nine and Two", within the Narcotics Division?

A: That sounds like our quota.

Q: Did this term only apply to Team One?

A: As far as I know, it was everybody in the unit.

Q: Explain the "Nine and Two" system in your words?

A: "Nine and Two" was nine bodies or nine arrests and two search warrants a month.

Q: What would happen to investigators that didn't meet the "Nine and Two" standard?

A: I don't know, I really don't know.

Q: Do you know of anybody that didn't make it?

Q: Are you aware of the tactic "Knock and Talk"?

A: Yes I am.

Q: In your own words, explain how the "Knock and Talk" tactic works?

A: If you have information, whether it was from an informant or a lead sheet of a specific location of where they're selling drugs. A "Knock and Talk" is to go up to the door and it is basically what it says. You knock on the door and if somebody comes to the door you talk. You tell them that you have information and you believe that they are selling marijuana, cocaine, or whatever. You basically try to get consent from the residents or lease holder to go in and search their home without a warrant. We used "Knock and Talks" back when I was in Weed and Seed in the late 90's. I didn't do them a lot when I was in narcotics.

Q: How would you document the consent?

A: We had a consent form; we had one for a vehicle and for a residence. What we would do is fill it out and let them put their name on it. We would let them read it and a lot of times I would read it to them. They would sign, the investigator would sign, and if available a witness would sign. Once they did that you would go in and look around, but if they said stop, then you got to stop.

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: No, not that I know of.

Q: Have you ever heard of the phrase "Freezing the Scene"?

A: Yes I have heard that.

A: No.

Q: Have you ever taught another investigator or officer how to do a hand-off?

A: No.

Q: Are you familiar with the term "Nine and Two", within the Narcotics Division?

A: Yes.

Q: Did this term only apply to your team?

A: No. I don't remember anything in writing.

Q: In your words, explain the "Nine and Two" system?

A: I would say that it refers to writing two warrants and arresting nine suspects for the month.

A: I don't recall it just seems like it was there. I have no recollection of the standard being written anywhere.

Q: Were there any investigators that didn't meet the "Nine and Two standards?

A: Absolutely, every month.

Q: What would happen to investigators that didn't meet the "Nine and Two" standard?

A: Nothing.

Q: Are you aware of the tactic "Knock and Talk"?

A: Yes.

Q: Do you have specific knowledge of incidents where a "Knock and Talk" was used to gain access to a person's home and conduct searches for drugs without probable cause or a warrant?

A: No. We would use lead sheets as a tool and a knock would be the last resort. You would never use a knock and talk to search without reason.

Q: Have you ever heard of the phrase "Freezing the Scene"?

A: Yes.

Q: Have you ever entered anyone's home without probable cause and detained everybody until someone from your team could go and secure a search warrant?

A: No not without probable cause.

Q: Was this a common practice for other members of your team?

A: No.

Q: Did you ever work any extra jobs for Investigator Gregg Junnier?

A: No.

A: No.

Q: Have you answered these questions truthfully and accurate?

A: Yes.

Q: Would you like to add anything else to your statement at this time?

A: Yes I would. On the first statement I made for Neal Street, I wanted to stress that my team never quit working for the city. The guys in my team, even under the pressures of Neal Street never stopped working to make Atlanta safe. Lieutenant Gibbs was an outstanding Lieutenant in Narcotics and would never in anyway condone that type of behavior. If she had an inkling of idea that type of behavior was occurring, she would have notified the proper people and ended it.

Q: You are aware that this is an on-going investigation and you are forbidden to discuss details of this case with anyone other than your attorney or representative?

A: Yes.

Q. Are you aware that you may be required to submit to a computer voice stress analysis exam per APD.SOP 3120?

NARRATIVE

Mr. Jones was allowed to make a Nextel call to his contact. Inv. Junnier and I listed to the call on the speakerphone. Mr. Jones told Oscar it was a go and to bring on the marijuana. Mr. Jones requested Oscar bring the marijuana to "D's" place. Oscar stated he was coming from Campbellton Rd near S&S Food in the plaza. Oscar said he would be on his motorcycle.

Oscar Harris parked his motorcycle behind Mr. Jones car and brought a black and blue gym bag into the house. Mr. Harris was detained in the house. Inside the gym bag was approximately 22 pounds of marijuana. Packaged in two large bundles. Also in the bag was $905.00 cash.

Mr. Harris explained that he also was just a courier and that he could not afford to get in trouble for the marijuana. Mr. Harris said he wanted to do what he could to get out of trouble. Mr. Harris was advised of his Miranda rights and wished to speak to me. Inv. Junnier and I interviewed Mr. Harris. Mr. Harris stated he could call the source and tell him the buyer needed more marijuana. Mr. Harris called the source and spoke to him on speakerphone. Mr. Harris told the source that the buyer wanted 30 more pounds and needed to know if he could provide that. The source paused for about 2 to 3 seconds and stated he had 20 pounds. The source the told Mr. Harris he could come pick it up right now. Mr. Harris said he was being paid $500.00 for his part of the deal of 20-pounds.

A copy of the search warrant and the residence were left with Derrica Gibson who arrived on the scene while police were still present.

NARRATIVE

66. On 1-11-06, Team 1 Narcotics executed a search warrant at the listed location. Upon arrival Mr. Brown was walking to his vehicle smoking a marijuana blunt. Upon entry no other subjects were found in the residence. K-9 unit (Miller / Murphy) was called to the scene to conduct a search. K9 Ofc Murphy showed alot of interest in an area in the bathroom that has a hole (open) in the ceiling. No other drugs were found in the apartment. Baggies used to package marijuana and cocaine were found in the kitchen. The kitchen also showed Mr. Brown was a barber. Hair clippers, razor, and blankets/sheets were in the kitchen. Mr. Jordan came and knocked loudly on the back kitchen window. Upon unlocking and opening the back door, Mr. Jordan stated

5. NARRATIVE

his hand thru a small hole in the screen/burglar bar door. with a folded 5 dollar bill in his hand he said "let me get a 5" to a uniformed police officer. Mr. Jordan then remained the officer as police and quickly stepped back from the door. Mr. Jordan was then brought in the apartment. He tried to explain he wanted to buy a beer was what he meant. He said he pay'd 1 dollar for a beer.

Mr. Brown had adimatley denied he sells drugs or anything else.

From my experience as a narcotics detective. Mr. Jordan was attempting to buy 5.00 of marijuana when he come to the back door, by the way he acted, what he said, then how he attempted to cover what he was doing. Mr. Brown sells 5.00 bags of weed.

On 12-22-04 Narcotics Team 1, Executed a search warrant for drugs at the listed location. Upon the team approaching the door we began to see movment inside the house. Shortly after that we could see more movement with people running back and forth infront of the doorway acting frantic. We announce police-search warrant and ordered that the door be opened. We could observe alot of movement as people ran from the livingroom to the left side of the house (Danta's Bedroom/kitchen area). We were then able to make forced entry and cleared the house locating all subjects in the livingroom area with the exception of Smith and Robinson who where in the front right bedroom. Once the residence was cleared we were able to secure and search all subjects. As we had moved thru the house we were able to observe drugs in plain view on the floor of the hallway and back left bedroom floor. As we searched the occupants of the house we found several with large amounts of money on their person. Hayes had $438 in cash in his left front pocket. Jones had $1016 in cash in his left front pocket. Smith had $1560 cash in his right front shorts pocket which was under a pair of sweat pants.

Once we completed the search of subjects we began a search of the residence. In the right front bedroom of Smith a small baggie of marijuana was located in a sweat shirt jacket belonging to Smith. Another small baggie was found in the TV cabinet drawer and a small amount of loose marijuana was found on a dresser. Smith claimed ownership of the marijuana found in his room. In the livingroom on a coffee table was a scale, razor blade and of baggies used to package dime bags. On the floor around the sofa was loose marijuana as well as under and behind the sofa. In the sofa a bag of app 7.8 gms of marijuana was found in the end along with a steak knife. On the other end was a S&W 38 cal handgun pushed in under the back cushion. Hayes

were in the process of the deal when we arrived. When Jones was asked to give a written statement he stated he felt he should maybe have his attorney present. Young states he does not sell cocaine he sells marijuana, he confirmed that Shack had brought the cocaine and Jones was going to make the purchase. Hayes stated he just sells marijuana and was being honest on what belongs to him. He stated thet the sell was being done in the kitchen between Shack and Jones, and that Young was aware and present while it was going on. He stated that Shack had brought the counterfeit money and Burris took it from him. Hayes stated that everyone there all run together and comes there a good bit. He confirmed that Young lives in the left rear room and Smith stays in the front right room. Hayes is the "Target" that my CI made the marijuana buy from. Shack stated he was only there to bring some childrens cloths to someone and denied having anything to do with the drugs. Burris stated Shack and Jones were in the kitchen conducting the deal for the cocaine and Young was back and forth between the bedroom and kitrchen. He stated that when the police arrived Young instructed everyone to dump thre drugs in the bedroom. Robinson was said to be there to visit Smith.

Investigator Peterson of the Gun Unit came to Assist on the firearm charges and see if the primary suspects were convicted felons. He stated that Young has pending felony charges and Smith is a convicted felon. Peterson took custody of the firearms at the scene. All listed property was turned in. I have observed the Ford Expedition to be located at the residence on several occasions when conducting surveillance, and to be driven by Young.

JUDGE OF THE SUPERIOR COURT OF
FULTON COUNTY, GEORGIA

AFFIDAVIT FOR DETECTIVE C. A. BOND

I Investigator C. A. Bond, being duly sworn as a Police Officer for the City of Atlanta, state that:

I have been a police officer for the City of Atlanta Police Department since June 11, 1993. I was previously assigned to the uniform division in Zone 1. I worked as a patrol officer and as a community oriented bicycle officer thru 1997. Up to 2004, I was assigned to the DUI Task Force. I have been assigned to the Narcotics Unit of the Special Enforcement Section as of April 2004. I have had extensive training in the interdiction and trafficking of illegal drugs, as well as the clinical effects of persons under the influence of these drugs. During my career, I have been involved in numerous investigations involving illegal drug activity. Some of these investigations involved the sale and distribution of these drugs, such as cocaine, heroin, marijuana, methamphetamine and MDMA.

On 12/10/2004, Inv. M. Guerin and I met with a reliable confidential informant (CI) to conduct narcotic investigations concerning narcotics sales at various locations. The CI advised that that he had information that marijuana is being sold at 674 Alta PL NW, Atlanta, GA. The informant has provided information to the Atlanta Police Narcotics Unit in the past that was reliable and resulted in the seizure of marijuana, cocaine, MDMA, stolen firearms and assets. The informant was searched and given $50.00 (city funds) to attempt to purchase marijuana from the house. The subject was released where the CI walked down the street turned into the yard at 674 Alta PL NW. The CI walked onto the porch where the CI was met by a subject called "Red" at the door. The CI requested $50.00 of "dro" marijuana. The CI was invited into the house where the CI handed him $50.00 of city funds .The CI stated the drugs were on a table in the front room along with a black revolver handgun on the table. The CI stated "Red" picked up a plastic sandwich bag which contained "Hydro" marijuana and gave it too the CI. The CI then left the house returning back to the release point. The CI then handed me one clear sandwich bag of marijuana. The informant stated a subject described as "Red", B/M, 510 height, 160 pounds, glasses, and gold teeth sold the CI the marijuana. The informant was searched again. No other drugs or currency were found in the informant's possession.

Based on this information I believe marijuana is being sold and stored at 2494 Bellview Ave. NW, Atlanta, GA. I further request that a search warrant be issued for this location. I also request a No-Knock Clause be added due to ~~there~~ being a ~~firearm present~~.

I DETECTIVE H BUCHANAN AM A DULY SWORN POLICE OFFICER FOR THE CITY OF ATLANTA
POLICE DEPARTMENT AND HAVE BEEN SINCE MAY 28, 1996. I AM CURRENTLY ASSIGNED TO THI
NARCOTICS DIVISION AND HAVE BEEN SINCE JUNE 28, 2005. BEFORE BEING PROMOTED TO
DETECTIVE I WAS THE TEAM LEADER OF THE ZONE 3 MORNING WATCH IMPACT TEAM FOR
ALMOST 3 YEARS. OUR MAIN FOCUS WAS THE STREET LEVEL NARCOTICS AND OTHER MAJOR
CRIMES WITH IN ZONE 3. I HAVE HAD EXTENSIVE NARCOTICS TRAINING WITH THE ATLANTA
POLICE ACADEMY AS WELL AS THE REGIONAL COUNTER DRUG TRAINING ACADEMY MERIDIAN,
MISS, THE MULTI-JURISDICTIONAL COUNTER-DRUG TASK FORCE ST PETERSBURG, FLA. AND THE
H.I.D.T.A. UNIT WITH IN THE CITY OF ATLANTA.

ON 10-11-05 A CONFIDENTIAL RELIABLE SOURCE WAS GIVEN $50.00 CITY ISSUED FUNDS AND
INSTRUCTED TO GO TO 580 MAYLAND AVE AND ATTEMPT TO MAKE A NARCOTIC PURCHASE. THE
CONFIDENTIAL SOURCE WAS SEARCHED FOR DRUGS AND MONEY AND THEN DRIVEN TO THE
LOCATION. THE CS WAS OUT OF VIEW FOR A SHORT AMOUNT OF TIME AS THE SELL WAS MADE
FROM THE REAR OF THE LOCATION. THE CS ADVISED ME THAT "COOL" A BM ANSWERED THE
BACK DOOR WITH A PISTOL IN HIS WAIST BAND AND THE PURCHASE OF 1.6GRAMS OF CRACK
COCAINE WAS PURCHASED FOR $50.00 THROUGH THE BURGLAR BAR DOOR. THE CS BROUGHT
THE CRACK COCAINE BACK, HANDED IT TO ME AND THEN ENTERED THE UNDER COVER
VEHICLE. WE ALL LEFT THE LOCATION AND THE CS WAS SEARCHED AGAIN. WE FOUND NO
MONEY OR DRUGS IN THE CS POSSESSION. THE CS ADVISED THAT THERE MAY BE MORE GUNS
INSIDE THE LOCATION SINCE THE DEALER HAD ONE IN HIS WAIST BAND DURING THE SELL. THIS
CS HAS LED THIS NARCOTICS TEAM TO NUMEROUS HIGH-END DRUG, MONEY AND PROPERTY

Warning shots are generally prohibited.

An employee shall not shoot at any person, except to protect his/her own life or the life of another person.

Discharging a firearm from or at a moving vehicle is prohibited, unless the occupants of the other vehicle are using deadly physical force against the employee or another person by means other than the vehicle.

Employees shall not point firearms at persons in any circumstance under which the discharge would not be clearly justifiable. If an employee finds it necessary to point a firearm at another, the employee should not interpret this necessity as an obligation to discharge the weapon.

The discharging of a firearm at dogs or other animals shall be an action employed ONLY when no other means to bring the animal under control exist

A firearm shall not be discharged if the lives of innocent persons may be in danger.

EMERGENCY DRIVING AND PURSUIT DRIVING POLICY

Except under extraordinary circumstances, high pursuits are expressly prohibited during this detail. Circumstances that may necessitate high-speed pursuit or emergency response may include but are not limited to, the threat of serious bodily injury or death to an Investigator/Officer or other party.

1. Severity of the offense or emergency.
2. Probability of apprehending the violator {s} at a later time.
3. Weather and road conditions.
4. Availability of emergency equipment.

NARRATIVE

Topic: narcotics

On 09-21-2005 I was contacted by a confidential reliable source. He informed me that there were narcotics sells going on at 3762 MLK apartment C9. He advised me that a black male by the nickname of "Q" lived there and sold marijuana. I advised me he would be able to make a buy for me. I searched him to make sure he had no narcotics or additional funds on his person; he did not. I gave him 25 dollars of City of Atlanta buy money after making copies of the two ten dollar bills and one five dollar bill. He went to apartment C9. While he was inside a male in a white chevy Camaro went into Apartment C9. The male in the Chevy Camaro came out and left. I recognized him as a male that lives at 940 Bolton Rd. Apartment A1. Just after the Chevy Camaro left my confidential reliable informant came out of apartment C9. He gave me the marijuana and told me the "Q" sold it to him. He asked me if I saw the male that came out right before he did and i told him yes. He advised me that "Q" sold him a half pound of marijuana and that the male concealed it in his very baggy pants. The marijuana was turned into police property as evidence.

AFFIDAVIT: 3762 Martin L. King Jr. Drive Apartment C9

City of Atlanta Police Officer B.J. Burchfield

I, B. J. Burchfield, being duly sworn as a police officer for the City of Atlanta, state that: I have been a Police Officer with the City of Atlanta Police Department since June 2002. This unit investigates illegal drug violations as well as weapons violations that occur in Zone One. I have attended the Georgia POST certification course as well as other training pertaining to the investigation of illegal drug trafficking. I have been assisting in several investigations resulting in the arrest of subjects for trafficking and sales of illegal drugs as well as weapons violations. These drugs include but are not limited to cocaine, heroin and marijuana. I am familiar with the methods employed by drug dealers engaged in the distribution of controlled substances. During the course of these investigations I have assisted in preparing both search and arrest warrants pertinent to the investigation. I have participated in this investigation from the onset. This affidavit is based upon my personal investigation of these matters, information from Confidential Informant as well as other law enforcement personnel. This affidavit does not contain all the information known to me about this investigation.

In 09-21-2005 & 09-22-2005, a reliable confidential source advised me that illegal drugs were being sold and stored from 3762 Martin L. King Jr. Drive Apartment C9. Based on this information, I planned to send a Confidential Informant (CRI) to the location to make an illegal drug purchase.

Between the dates of 09-21-2005 & 09-22-2005, I sent a Confidential Reliable Informant (CRI) to 3762 Martin L. King Jr. Drive Apartment C9 to purchase illegal drugs. The CRI was searched prior to leaving for the location for other contraband (search revealed none). The CRI was driven to the target location in an undercover vehicle. He entered walked to the apartment and entered apartment C9. Approximately one minute later the CRI exited the location and walked back to the street where I was waiting. The CRI was under constant surveillance entering and exiting the location. The CRI handed me 1.2 ounces of marijuana that was later turned into city property control as evidence. Since this CRI drug purchase I have placed 3762 Martin L. King Jr. Drive Apartment C9 under surveillance. I have seen mostly pedestrian traffic walking up to the location taking the same route as the CRI. Through my training and experience as a police officer this is an indication of drug activity.

The residence of 3762 Martin L. King Jr. Drive Apartment C is an apartment in the King Gardens apartment community and sits at the far south west corner of the complex. It is on the back right corner of building C if you are looking at the apartment from the street.

In conclusion, I ask permission to make entry into 3762 Martin L. King Jr. drive, to conduct a complete search of the residence, curtilage, any structure contained within the curtilage, and or any other person(s) on said premises who (a) reasonably might be involved in the commission of the aforesaid violation of the laws of Georgia, or (b) to protect an officer from attack, or (c) to prevent the disposal or concealment of any instruments, articles, or things particularly described in the warrant. NARRATIVE

Topic: search warrant

On 09-22-2005 I applied and received a search warrant for the apartment of 3762 MLK apartment C9. The warrant was signed by Judge Hicks at 1040 hours. At approximately 1710 hours today Myself and other officers executed the search warrant. Upon entering the residence we found two females inside the apartment. Both females were detained without incident. On the dresser inside the bedroom was Mrs. Newton's georgia ID. Right next to the ID were several bags of suspected marijuana. Inside the bathroom under the sink inside of a purse commonly carried by females were 20 hits of crack cocaine. A safe was found and inside the safe was a large ziplock bag of marijuana and more crack cocaine. Under a matress in the same room that I found Mrs. Newton's ID was a stolen Smith and Wesson revolver. It was reported stolen on 04-30-1992 in Los Angeles Ca. There case number was 921215488. Inside the closet of that same room was a 12 gauge shot gun. I asked Mrs. Newton where her boyfriend was and she refused to tell me. We found business cards for Mr. Eskew Jackson aka "Big Q". My informant identified him as the man that sold him the marijuana. I also found two polaroid pictures one with what looks like Mrs. Walker holding the shot gun I found. The other Picture was of Mr. Jackson holding the shot gun and stolen pistol. In the picture he is standing in front of his brown honda vehicle. It is register to him. All of the drugs, guns, scales and money were inventoried and transferred to atlanta police property. Both females were charged and transported to fulton county jail. Warrants were taken out for Mr. Jackson.

NARRATIVE

Topic: narcotics

On 09-21-2005 I was contacted by a confidential reliable source. He informed me that there were narcotics sells going on at 3762 MLK apartment C9. He advised me that a black male by the nickname of "Q" lived there and sold marijuana. I advised me he would be able to make a buy for me. I searched him to make sure he had no narcotics or additional funds on his person; he did not. I gave him 25 dollars of City of Atlanta buy money after making copies of the two ten dollar bills and one five dollar bill. He went to apartment C9. While he was inside a male in a white chevy Camaro went into Apartment C9. The male in the Chevy Camaro came out and left. I recognized him as a male that lives at 940 Bolton Rd. Apartment A1. Just after the Chevy Camaro left my confidential reliable informant came out of apartment C9. He gave me the marijuana and told me the "Q" sold it to him. He asked me if I saw the male that came out right before he did and i told him yes. He advised me that "Q" sold him a half pound of marijuana and that the male concealed it in his very baggy pants. The marijuana was turned into police property as evidence.

NARRATIVE

Topic: narcotics

I have been recieving information from different people in the community that narcotics is being sold from 940 Bolton Road Apartment A-5 by a male who goes by the name "Chuck". Between the dates of 12-3-05 and 12-6-05 I contacted a Confidential Reliable Source (CRI) in reference to the apartment. I met my CRI and asked my CRI to go to the apartment and attempt to buy narcotics from the location. My CRI advised me that "chuck was a familiar name and would be able to go to the apartment. I searched my CRI and did not find any narcotics. I gave the CRI 50$ and watched the CRI knock at the door. The door opened and my CRI entered the apartment. About 3 minutes later my CRI exited the apartment and walked to where I was waiting for him. He handed me a bag of marijuana weighing 1 ounce which is worth 50$. A warrant will be applied for with Fulton County Court for the searching of the apartment for additional narcotics and "chuck". The marijuana was transported to city of atlanta property control.

NARRATIVE

Topic: Narcotics Warrant

Under Fulton County Docket Number E000691 I executed a search warrant at 940 Bolton Road Apartment A5. Upon arrival with backup units I saw a male look out the front window as we were attempting to make entry on the apartment. When entry was made I saw a black male run into the kitchen. He was taken down to the ground a detained in the kitchen. After the apartment was searched for any other people in the apartment a search was began for narcotics. I noticed in the bedroom dresser a black bracelet that had the name "Chuck" on it. Right next to that bracelet was the Ga. Drivers licence for Mr. Rufus Brown, (the male detained in the kitchen). Also on the dresser was 168 Dollars in cash and other watches and chains. I started to look in the kitchen where Mr. Brown ran into when entry was made. On the counter was several baggies and two narcotics scales. On the table was a box containing bottles of Alcohol, Swisher sweets cigars, A garbage bag with about 500 empty cigarette packages (not taken into evidence), and small paper bags. As I was looking at them Mr. Brown advised me he sold them to people in the neighborhood. I looked in the trash and noticed a rolled up marijuana blunt. I recovered this and started looking in the trash more. I started finding bags of marijuana. I also found the cocaine, and extacy inside the same garbage can. I dumped to garbage out and recovered the rest of the marijuana that was in the garbage. I called a K-9 unit out to see if there was any more found. The dog came into the apartment and started scratching and sniffing at the corner of the couch. I found a small hole in the couch where things might be able to be stored. The dog then started doing the same thing on the speaker box. I opened the speaker box but did not find anything, but could smell marijuana very strongly from the box. No other narcotics were found other than the items pulled out of the garbage can that was inside the kitchen. Mr. Brown was the only person inside the apartment.

THE UNDERSIGNED, BEING DULY SWORN, UPON HIS OR HER OATH, DEPOSES AND STATES THAT THE FOREGOING IS TRUE, CORRECT, COMPLETE AND LEGIBLE TO THE BEST OF HIS/HER KNOWLEDGE AND BELIEF.

NARRATIVE

Topic: Narcotics Warrant

Under Fulton County Docket Number E000691 I executed a search warrant at 940 Bolt in Road Apartment A5. Upon arrival with backup units I saw a male look out the front window as we were attempting to make entry on the apartment. When entry was made I saw a black male run into the kitchen. He was taken down to the ground a detained in the kitchen. After the apartment was searched for any other people in the apartment a search was began for narcotics. noticed in the bedroom dresser a black bracelet that had the name "Chuck" on it. Right next to that bracelet was the Ga. Drivers licence for Mr. Rufus Brown, (the male detained in the kitchen). Also on the dresser was 168 Dollars in cash and other watches and chains. I started to look in the kitchen where Mr. Brown ran into when entry was made. On the counter was several baggies and two narcotics scales. On the table was a box containing bottles of Alcohol, Swisher sweets cigars, A garbage bag with about 500 empty cigarette packages (not taken into evidence). and small paper bags. As I was looking at them Mr. Brown advised me he sold them to people in the neighborhood. I looked in the trash and noticed a rolled up marijuana blunt. I recovered this and started looking in the trash more. I started finding bags of marijuana. I also found the cocaine, and extacy inside the same garbage can. I dumped the garbage out and recovered the rest of the marijuana that was in the garbage. I called a K-9 unit out to see if there was any more found. The dog came into the apartment and started scratching and sniffing at the corner of the couch. I found a small hole in the couch where things might be able to be stored. The dog then started doing the same thing on the speaker box. I opened the speaker box but did not find anything, but could smell marijuana very strongly from the box. No other narcotics were found other than the items pulled out of the garbage can that was inside the kitchen. Mr. Brown was the only person inside the apartment.

NARRATIVE

Topic: narcotics

I have been watching apartment B5 in the King Gardens Apartment Community for several weeks now. Twan is a medium complected black male, heavy set about 5'9". I see him constantly from working in the area five day's a week. He stays there with another female. I have noticed in the time I've been watching the apartment a lot of pedestrian traffic coming and going from the location. I contacted a Confidential Reliable Informant, (CRI), to see if a buy could be made from the apartment. I met with my CRI prior to attempting to purchase narcotics from the location. I searched the CRI for any narcotics or currency. There was none present or found. I gave the CRI 50$ of city of atlanta buy funds. I hid in the woods facing the apartment. I watched the CRI go to the apartment, knock on the door, and enter the apartment. About 1 minute after entering the CRI exited the door. The CRI walked directly to me into the woods and gave me the crack cocaine weighing 2.1 grams. A search warrant will be applied for with Fulton County Court.

On 05-24-06 at 1500 hrs I did serve a valid search warrant under docket #E000956. In the front bedroom I located a male and female laying on t Looking at the bed the male was on the right side and the female was on the left. I detained both suspects. I turned the male over and recognize as the male that sold marijuana to my informant. I searched his immediate wingspan and in the night stand I found a cobra 380 auto pistol and sn of cocaine. I advised him he was under arrest. I continued my search and in his white shoes I found another bag of cocaine. On the top of the nightstand was a large amount of cash. I looked through the cash and found the currency used to purchase the marijuana. I know it was the sar currency because prior to sending my informant to the house I photo copied the cash and the serial numbers matched. I read both Mrs. Redding Brinson there rights. Both agreed to talk with me without a lawyer. Mr. Brinson advised me that he just got out of jail for a rape charge in Decem advised me he had previously been convicted of a felony. I asked him who's house were we in. He advised me he and Mrs. Redding were renti house and moved in about a month prior. He advised he was paying Mrs. Redding rent to stay there. He advised the cocaine was Mrs. Redding she sells it. He advised he bought the gun from a "crack head" for 50 dollars about 2 weeks ago. In the bedroom both suspects were in I found perscription bottles for Mrs. Redding and Mr. Brinson. I did not take the perscription bottles because medicine was still inside the bottles. ACIC at this time so I was unable to check if the gun was stolen or not. I will run the gun on ACIC on 05-25-06 to see if it is a stolen gun. Both subjec charged accordingly and transported to fulton county jail. I field tested the cocaine and it tested positive.

I served a search warrant at the above listed location under docket # E000955. Upon entering I found Mrs. Smith-wilcox. I detained her and advised her she was detained until the search was finished. I started in the bedroom and under the bed, between matress and box spring.I did find a large peice of crack cocaine along with 3 fake twenty dollar bills. In the tv stand about 3 feet from where she was, well within arms reach I did find a glock 9mm pistol. In the drawer under the microwave I did find a scale with cocaine residue, and a large amount of small baggies. I advised her she was under arrest and advised her of her rights. She advised she did not want to talk and told me to book her and send her on her way. She then told me to get out of her house. In the bedroom where I found the cocaine and fake money I found several pill bottles with her name on it. I then sent her to fulton county jail and transported to cocaine, gun and fake money to property. I field tested the cocaine and it tested positive.

On 05-24-06 at 1500 hrs I did serve a valid search warrant under docket #E000956. In the front bedroom I located a male and female laying on the bed. Looking at the bed the male was on the right side and the female was on the left. I detained both suspects. I turned the male over and recognized him as the male that sold marijuana to my informant. I searched his immediate wingspan and in the night stand I found a cobra 380 auto pistol and small bag of cocaine. I advised him he was under arrest. I continued my search and in his white shoes I found another bag of cocaine. On the top of the nightstand was a large amount of cash. I looked through the cash and found the currency used to purchase the marijuana. I know it was the same currency because prior to sending my informant to the house I photo copied the cash and the serial numbers matched. I read both Mrs. Redding and Mr. Brinson there rights. Both agreed to talk with me without a lawyer. Mr. Brinson advised me that he just got out of jail for a rape charge in December. He advised me he had previously been convicted of a felony. I asked him who's house were we in. He advised me he and Mrs. Redding were renting the house and moved in about a month prior. He advised he was paying Mrs. Redding rent to stay there. He advised the cocaine was Mrs. Redding's and she sells it. He advised he bought the gun from a "crack head" for 50 dollars about 2 weeks ago. In the bedroom both suspects were in I found perscription bottles for Mrs. Redding and Mr. Brinson. I did not take the perscription bottles because medicine was still inside the bottles. ACIC is down at this time so I was unable to check if the gun was stolen or not. I will run the gun on ACIC on 05-25-06 to see if it is a stolen gun. Both subjects were charged accordingly and transported to fulton county jail. I field tested the cocaine and it tested positive.

THE UNDERSIGNED, BEING DULY SWORN, UPON HIS OR HER OATH, DEPOSES AND STATES THAT THE FOREGOING IS TRUE, CORRECT, COMPLETE AND LEGIBLE TO THE BEST OF HIS/HER KNOWLEDGE AND BELIEF.

NARRATIVE

66. Between the dates of 11-14-06 and 11-18-06 I sent a confidential reliable informant to the yellow house on ward st. Between 822 and 836. There was no address on the house, mail box or street anywhere so I was unable to get the address. the house is a residential house; yellow with green shutters. I watched the informant go to the location and knock on the door a medium complexion black male answered the door. a quick hand to hand transaction occurred and the informant returned home. the informant gave me one rock that was bought for 10 dollars. the informant was searched prior to going and had no illegal narcotics. A search warrant will be applied for.

ATTACHED AFFIDAVIT

MAGISTRATE COURT OF FULTON COUNTY SEARCH WARRANT
NUMBER _____

I Investigator Paul A. Vignola, am a duly sworn police officer for the city of Atlanta Police Department and have been since November 21, 1989. I am currently assigned as an Investigator with the narcotics unit and have been since October 1998. I have been assigned in a uniform capacity to the Special Investigations Section since August 1993. Before that I was assigned to uniformed patrol in the Zone 3 precinct.

I have attended and completed Georgia Post Certified training on Narcotics Identification and Investigation, including the handling of confidential informants, High Risk Warrant Service and other training pertaining to narcotics investigations.

During the course of my assignment to narcotics, I have written and executed in excess of eighty- (80) search warrants and have assisted in the execution and processing of several hundred search warrants. I have also dealt with different levels of narcotics enforcement, seizing various types of narcotics and have been involved in the arrest of several hundred individuals for narcotics violations.

Within the last few weeks, Atlanta Police Department Narcotics has received information concerning drug sales in the apartment complex at 1247 Simpson Rd. This information was received in the form of a Narcotics lead sheet, which was passed along to me for investigation.

On 08-24-04, I met with a confidential reliable source to investigate the reported activity. I transported the source to the location and briefed the source on the activity. I searched the source for contraband and gave the source city-issued funds. The source exited the vehicle and walked into the apartment complex. The source walked to the second building from Simpson Rd. and had conversation with subjects standing outside in the driveway. The source walked up to the southernmost door at the end of the building and knocked. The door opened and the source conducted a transaction with whoever was inside the apartment. The source returned to my location and handed me one loose hit of suspected Crack Cocaine. The source advised that the subjects outside advised to knock on that door for some "hard", meaning Crack Cocaine. The source advised that the subject described in the affidavit asked what the source needed, the source asked for a "dime of hard". The subject handed the source one hit of suspected Crack Cocaine and the source handed the subject $10.00 in city-issued funds. There is no number on this door indicating an apartment number, but personnel from a security company that previously provided security for this complex verified that the apartment was #13. Also, following the numbering sequence from building #1, that also indicates that the particular door is in fact #13.

This confidential reliable source has been registered with the Atlanta Police Department for over two and a half years. Information provided by this source has led to numerous drug and weapon seizures and several arrests in the past and a seizure of (12)-hits of suspected Crack Cocaine, (55)-bags of suspected Marijuana, one handgun and two arrests within the past two weeks. This Investigator must also inform the court that this source does have felony convictions.

Due to the facts and circumstances stated, this Investigator believes that suspected cocaine is being sold and/or stored at 1247 Simpson Rd. #13. In conclusion, this

Investigator requests permission to enter 1247 Simpson rd. #13 to conduct a complete search of the premises and any described subjects therein.

SUPERIOR COURT OF FULTON COUNTY SEARCH WARRANT
NUMBER _____

On 11/4/04, Sgt. Stallings advised me that he received a lead sheet indicating crack cocaine was being sold at 2150 Verbena St. #3 NW Atlanta, Georgia. On 11/4/04, Inv. Junnier and I directed a confidential and reliable informant to 2150 Verbena St. #3 NW Atlanta, Georgia, Fulton County. The informant was searched and given $40.00 (city funds) to purchase crack cocaine at apartment #3. This informant has provided information to the Atlanta Police Narcotics Unit in the past leading to the seizure of both marijuana and cocaine and multiple drug related arrests. The most recent incident was within the past ten days. The informant was under surveillance as he walked to apartment #3. The informant remained at the apartment for less than five minutes. A black male (approx. 508hgt, 140-150lbs, 25-30 yoa, dark comp.) followed the informant out of the apartment and escorted the informant to apartment #8. Another black male (twist hair, gold teeth,600hgt, 23-24yoa) exited apartment #8 and spoke to the informant and the other man. The man from apartment 8 then removed a clear plastic bag from his pocket containing suspected crack cocaine. The man from apartment #8 took a bill from the informant and handed him suspected crack cocaine which he removed from the bag he took out of his pocket. The informant walked directly back to my undercover vehicle and handed me three small hits of suspected crack cocaine he was holding in his right hand. Then informant handed me three additional hits of suspected crack cocaine he removed from his right front pants pocket. The informant was searched again. No other drugs or currency were found in his possession. The informant said he the man in apartment #3 who the informant called "Black" told him he only had three "dimes" left but he would let him have them for $20.00 for all three. The informant said "Black" told him that he would have more later in the day but if he wanted to spend the other twenty he would get him the same deal from his partner "T" next door. The informant said he agreed and "Black" walked him to apartment #8 where he met with "T" who sold him three hits of crack cocaine for $20.00. The informant

NARRATIVE

On 11-17-04, Team 1 Narcotics executed a search warrant at 2150 Verbena St. #3. We knocked and announced police but the occupants refused to open the door. We breached the burglar bar and front doors and made entry. When entry was made there were two occupants on the couch in the living room. The lease holder, Donald Coleman, and Lafaye Brooks, went out the back door and were detained by Sgt. W. Stallings and Inv. N. Lucas. Burnadette Dillingham and Angela Fitzpatrick were already at the back door and Sgt. Stallings and Inv. Lucas advised me that Fitzpatrick was yelling in the back door warning the occupants that the police were at the front door. There was also one small hit of suspected Crack Cocaine found on the ground in plain view of Brooks, Willingham and Fitzpatrick. Once the residence was secured, Coleman voluntarily advised that it was his residence and showed me a bag on the dresser in his bedroom containing suspected Marijuana. There were (29)-individual baggies of suspected Marijuana and one bag of loose suspected Marijuana. The total weight of the Marijuana was (52)- grams. Coleman also showed us a bank envelope hidden under a chair cushion in his bedroom that contained $4000.00. There was also a Winchester .12 gauge shotgun leaning against the dresser in the bedroom in plain view. Coleman was placed under arrest and transported to Fulton County jail and the suspected Marijuana, $4000.00 and Winchester .12 gauge shotgun were turned in to police property as evidence. Brooks and Dillingham were given a copy of charges for Disorderly Conduct and Fitzpatrick was placed under arrest for Disorderly Conduct 106-81.6. SPO G. Ramsey of the K-9 unit was called to the scene to conduct a further search but no other drugs were found.

NARRATIVE

On 11-17-04, Team 1 Narcotics executed a search warrant at 2150 Verbena St. #3. We knocked and announced police but the occupants refused to open the door. We breached the burglar bar and front doors and made entry. When entry was made there were two occupants on the couch in the living room. The lease holder, Donald Coleman, and Lafaye Brooks, went out the back door and were detained by Sgt. W. Stallings and Inv. N. Lucas. Burnadette Dillingham and Angela Fitzpatrick were already at the back door and Sgt. Stallings and Inv. Lucas advised me that Fitzpatrick was yelling in the back door warning the occupants that the police were at the front door. There was also one small hit of suspected Crack Cocaine found on the ground in plain view of Brooks, Willingham and Fitzpatrick. Once the residence was secured, Coleman voluntarily advised that it was his residence and showed me a bag on the dresser in his bedroom containing suspected Marijuana. There were (29)-individual baggies of suspected Marijuana and one bag of loose suspected Marijuana. The total weight of the Marijuana was (52)- grams. Coleman also showed us a bank envelope hidden under a chair cushion in his bedroom that contained $4000.00. There was also a Winchester .12 gauge shotgun leaning against the dresser in the bedroom in plain view. Coleman was placed under arrest and transported to Fulton County jail and the suspected Marijuana, $4000.00 and Winchester .12 gauge shotgun were turned in to police property as evidence. Brooks and Dillingham were given a copy of charges for Disorderly Conduct and Fitzpatrick was placed under arrest for Disorderly Conduct 106-81.6. SPO G. Ramsey of the K-9 unit was called to the scene to conduct a further search but no other drugs were found.

MAGISTRATE COURT OF FULTON COUNTY SEARCH WARRANT
NUMBER _____

I Investigator Paul A. Vignola, am a duly sworn police officer for the city of Atlanta Police Department and have been since November 21, 1989. I am currently assigned as an Investigator with the narcotics unit and have been since October 1998. I have been assigned in a uniform capacity to the Special Investigations Section since August 1993. Before that I was assigned to uniformed patrol in the Zone 3 precinct.

I have attended and completed Georgia Post Certified training on Narcotics Identification and Investigation, including the handling of confidential informants, High Risk Warrant Service and other training pertaining to narcotics investigations.

During the course of my assignment to narcotics, I have written and executed in excess of eighty- (80) search warrants and have assisted in the execution and processing of several hundred search warrants. I have also dealt with different levels of narcotics enforcement, seizing various types of narcotics and have been involved in the arrest of several hundred individuals for narcotics violations.

On 01-20-04, I met with a confidential reliable informant to conduct narcotics investigations in the area of 2165 Martin L. King Jr. Dr. I searched the informant and gave the informant city -issued funds. The informant exited my vehicle and I watched the informant walk into the parking lot between 2165 and 2167 Martin L. King Jr. Dr.. The informant had just left another apartment where the informant made a crack cocaine purchase. The informant was commenting about the suspected cocaine that was just purchased and the second described subject listed above, told the informant to go around the back of building 2165 and go upstairs to get something. The informant walked to the east side on the north end of building 2165 and walked up the stairs to the apartment on the right. The informant knocked on the door and the first described subject answered. The informant asked for a "dime of hard". The subject went back into the apartment and returned with a loose hit of suspected crack cocaine handing it through the burglar bar door. The informant handed the subject $10.00 in city issued funds. As the informant was leaving, another subject walked up and asked for some "POWDER and DRO" meaning powder cocaine and hydro marijuana. The informant left and returned to my location handing the suspected crack cocaine over to my custody. The informant was searched again. The second described subject was listed only as a suspect because he gave the informant information leading the informant to this location. This suspect's involvement in the activity at this location is uncertain at this time.

This informant has been a registered confidential reliable informant with the Atlanta Police Department narcotics unit for over two years. Information provided by this informant has led to numerous drug and weapon seizures and several arrests in the past and a seizure of seventeen-(17) marijuana plants seized on a search warrant of which this Investigator was the affiant on 12-23-03.

Due to the facts and circumstances stated, this Investigator believes that suspected cocaine is being sold and/or stored at the above apartment in building 2165. In conclusion, this Investigator requests permission to enter this residence to conduct a complete search of the premises and any described subjects therein.

ATTACHED AFFIDAVIT

MAGISTRATE COURT OF FULTON COUNTY SEARCH WARRANT NUMBER _____

04SW94

I Investigator Paul A. Vignola, am a duly sworn police officer for the city of Atlanta Police Department and have been since November 21, 1989. I am currently assigned as an Investigator with the narcotics unit and have been since October 1998. I have been assigned in a uniform capacity to the Special Investigations Section since August 1993. Before that I was assigned to uniformed patrol in the Zone 3 precinct.

I have attended and completed Georgia Post Certified training on Narcotics Identification and Investigation, including the handling of confidential informants, High Risk Warrant Service and other training pertaining to narcotics investigations.

During the course of my assignment to narcotics, I have written and executed in excess of eighty- (80) search warrants and have assisted in the execution and processing of several hundred search warrants. I have also dealt with different levels of narcotics enforcement, seizing various types of narcotics and have been involved in the arrest of several hundred individuals for narcotics violations.

On 03-04-04, I received information from Inv. G. Junnier that suspected crack cocaine was being sold at 2020 Alison Ct. B-8. Inv. Junnier received the information from a confidential source. On the same date, I met with a confidential reliable informant to investigate the suspected drug activity. I advised the informant of the location, searched the informant and gave the informant city- issued funds. I followed the informant into the parking lot of the apartment complex, watched the informant park and exit their vehicle. I observed the informant walk into the stairwell of building "B" leading up to apartment #8. The informant was in the stairwell for about one- minute then returned to the parking lot. I followed the informant to a location to retrieve the suspected drugs. Once at the meeting location, the informant gave me one loose hit of suspected crack cocaine. I searched the informant again. The informant advised that they knocked on the door of apartment #8 and the above -described female answered the door. The informant advised that they asked for a "dime of hard" meaning suspected crack cocaine. The informant advised that the female went back into the apartment and returned with the loose hit of suspected crack cocaine handing it to the informant. The informant gave the female $10.00 in city issued funds then left the location, subsequently meeting with me.

On 03-06-04, Inv. Junnier called me to give updated information on the location. Inv. Junnier advised that a Jocelyn Anderson was the lease holder of the residence. Inv. Junnier also advised a date of birth and a physical description of Miss Anderson. The age and physical description given matched the information provided to me by the informant.

This informant has been a registered informant with the Atlanta Police department for over two years. Information provided by this informant has led to numerous drug and weapon seizures and several arrests in the past and a seizure of (56)-hits of crack cocaine, (7)-bags of powder cocaine, 1.5 grams of crack cocaine, 36.3 grams and (29)-bags of suspected marijuana on two separate search warrants executed in January 2004 of which this Investigator was the affiant. This Investigator must also inform the court that this informant does have felony convictions in the past.

Due to the facts and circumstances stated, this Investigator believes the suspected crack cocaine is being sold and/or stored at this location. In conclusion, this Investigator

I have enclosed copies of the memorandums that we discussed yesterday. They do not mention the "9 and 2" numbers but do designate the amount of cases that Narcotics Unit detectives were expected to make. I have also included the follow up memorandum from Major P. Williams.

Major Williams refers to a July 30th memorandum (07/30/2003) but I am unable to locate that particular document.

If you have any questions or concerns, please give me a call at 404-309-5252.

MEMORANDUM

TO: All Narcotics/Weed & Seed Personnel

FROM: Lieutenant E. N. Finley

DATE: August 5, 2003 REVISED COPY

RE: Narcotics Unit Expectations

The productivity of the narcotics unit has been extremely low as a whole. Therefore, changes in the unit's method of operation are inevitable. Effective immediately, the Narcotics/Weed & Seed units will respond to Drug Related Quality of Life Issues. The units will be tasked to vigorously address lead sheet, hot spots, known drug locations, and open air drug market. The unit supervisors will be responsible for submitting a detailed enforcement activity sheet at the end of his/her tour of duty. This enforcement sheet will be placed in Investigator Z. Jackson's desk or In-Box.

The Narcotics/Weed & Seed units will be arrest driven in its goals and direction as a unit. The unit's new direction will allow us to effectively combat the growing drug problem in the city of Atlanta. The Narcotics Enforcement Team will conduct one reversal detail per week, and respond to Drug Related Quality of Life Issues in Zones 1, 3, and 5. This unit will be directed to make a minimum of 30 arrests per week.

Each supervisor will ensure his/her unit proactively make a minimum of 20 arrests per week and execute a minimum of 2 to 4 search warrants per week. Finally, the implementation of this type of aggressive enforcement actions will be viewed positively by the command staff and the community. This will be a valuable tool to address concerns and complaints, and will result in an organized approach to resolution.

Good afternoon LT.,

It would be fine for Inv. Buchanan to make contact with victims on D Burglaries/Larcenies and follow-up with auto theft victims. She cannot write reports, supplements or access GCIC and ICIS at this time. Her role should be administrative in the work place. She can drive City vehicles to do mail runs or any other assignment requiring transportation.

If you have any questions, give me a call on my cell.

Steve,
Can you possibly give me some clarification on what Inv. Buchanan can and cannot do? She tells me that her certification with POST is still valid, but she has not been to In-Service of course. Also, if her GCIC certification has expired (I'm checking with Ms. Favors on this), I will probably have to send her to do a GCIC workbook since technically she's not even supposed to be in area where she would have access to CHRI if that's expired.

My plan is to have her making the initial victim contact on "D" burglaries and forward info to active investigators. I'm just trying to make sure we're OK in doing that. If she's OK to write reports and supplements, I'm planning on getting her some ICIS familiarization as well. Any input you have will be appreciated.

RE: ***NATHAN L. LUCAS - POLICE OFFICER APPLICANT***

Mr. Nathan L. Lucas is native Atlantan who graduated from George Washington Carver High School in June 1991. Immediately following graduation, he enlisted in the United States Army where he served until December 1994, receiving an honorable discharge. He is currently employed with Wells Fargo as a Security Officer. Ms. Lynn Croix, a supervisor, stated that Mr. Lucas would be a "tremendous asset to the Atlanta Police Department."

The only area of concern that arose has been clarified as follows:

While in the United States Army, Mr. Lucas was involved in a physical confrontation at the post facilities' NCO Club. A sergeant allegedly initiated an altercation with Lucas and grabbed him by the throat as he tried to walk away from the area. It has been revealed by military officials that there were no formal charges or disciplinary actions brought against Mr. Lucas regarding this matter.

Mr. Lucas has passed all preliminary examinations for the position of Police Officer. His employment history and financial history have been stable. GCIC and NCIC reveal one traffic citation where a fine was paid.

Re: Incident Statement

On the evening in question I (Nathan Lucas) and three acquaintances went to the Enlisted Club at Schofield Barracks. As we entered the billiard room we paid the cashier for the use of a specific table. After paying for the table we were approached by a gentleman who stated that we had to pay him "ten dollars to play on his table". He appeared intoxicated and hostile so I chose to ignore him with the hopes that he would go away. As I began to rack the pool balls he came closer and began to curse in my ear. As I turned towards him he grabbed me by my throat. I pushed his hand away and he threw a punch at me. At this time my friends tried to get him to let go of me. He turned and started fighting with them. Security at the club told us to leave. We left the club to return to our barracks. The following day the M.P.'s came to our company to take statements on the situation and to launch an investigation because the other person was an Sergeant First Class. The unit Commander did an investigation and found that the Sergeant First Class was intoxicated and I nor my friends did anything to provoke this situation. I was advised by my First Sergeant to stay away from the Enlisted Club because it had a bad reputation. There was no disciplinary action taken by my superior officers.

Dear Sir/Mam,

I am writing to recommend an outstanding individual, Nathan Lennard Lucas. I had the pleasure of serving as his Infantry Rifle Platoon Leader for nine months. He has been an exceptional soldier. As a rifle platoon leader, it is my job to train and prepare my soldiers for many things, including combat. Mr. Lucas has demonstrated a rare ability to not only grasp new concepts, but to also apply these concepts. Mr. Lucas was the only soldier in our company of more than 100 soldiers who was proficient in all company weapon and communication systems. Mr. Lucas has shown exceptional leadership ability. He stood out amongst his peers and occupied a leadership position normally reserved for a soldier a rank higher with three more years of experience. He is not afraid to help others and is many times selfless. I have often seen him helping other soldiers, whether it is helping them with their equipment or making sure they understand their responsibilities. Mr. Lucas' hard work and dedication were recognized by his unit awarding him the Army Commendation Award, the highest award an enlisted soldier can receive outside of combat. Nathan Lennard Lucas has much to contribute in anything he gets involved in. He was a valuable asset to my platoon; the type of soldier that made me enjoy being a platoon leader. Mr. Lucas' technical expertise of equipment and his unending energy and loyalty made him one of the company's best soldiers. Mr. Nathan Lucas will make a fine addition to any state or federal law enforcement agency and can greatly contribute to its performance. If I can be of further assistance, please do not hesitate to contact me.

PSYCHOMETRIC REPORT

NAME: LUCAS, NATHAN L, BM257551032 AGE: 23 GENDER: M
FILE NUMBER: ADPSPOLI-7624 ISSUE: M-13
Date of Testing: 03/02/95 Date of Report: 03/02/95

This 23 year old applicant for a public safety position showed a defensive attitude toward the testing, trying to make a favorable impression; interview might focus on possible less favorable patterns that may be insufficiently shown by these data. Specific findings are as follows:

1) INTELLIGENCE: Average

2) INTERPERSONAL STYLE: Assertive, adventurous, outspoken, follows the group

3) BEHAVIOR CONTROL: Stable, confident, careful, reliable, well organized

4) DEMEANOR: Concerned for feelings, motivated by a sense of duty

5) STRESS TOLERANCE: Average

6) DEFENSIVENESS: Average

7) MOOD: Unremarkable

8) CHARACTER FLAWS: Not Evident

9) PROBLEMS OF SELF CONCEPT: Not Evident

10) PROBLEMS OF REALITY PERCEPTION: Not Evident

11) CAREER ORIENTATION: Highly motivated toward career success, seeks on-the-job contact

OVERALL SCORE: 80 Acceptable Candidate

Mr. LUCAS shows the overall mental ability to learn public safety procedures, but there may be problems of inattention, distraction, of difficulties in applying himself. The problems, if any, are unclear but further exploration in interview or by background investigation is warranted. Emotional fitness is not a problem. Assuming no serious problems of background and history, Mr. LUCAS should become a competent and effective law enforcement officer.

PROBLEM AREAS (IF ANY) FOR INTERVIEW OR BACKGROUND REVIEW

Mr. LUCAS's emotional life is apparently healthy and normally effective. He seems quite comfortable in his life situation and able to maintain his behavior within acceptable limits.

SOME PROBABILITIES BASED ON OUR FEEDBACK RESEARCH:

Responding to our request, 49 law enforcement agencies provided feedback information on 2,355 candidates whom we had evaluated about 3 years earlier. Slightly more than half of these (1,255) had been hired and we looked at their outcomes.

PROBABILITY estimates are intuitively sensible. A probability of 50 per cent means exactly what it appears to; the odds are fifty-fifty, either way. In a "zillion" trials, about half will come out one way and half the other. A probability of 90 per cent means that we expect that outcome about nine times out of ten - again, over a very large number of trials.

Our tables display TWO probabilities for each outcome. The BASE RATE is the probability for newly hired officers IN GENERAL, based on our data. For example, since about 72 per cent of all who are hired are still with the hiring department three years later, that BASE RATE is 72 per cent.

The second probability displayed is for Mr. LUCAS, THIS PERSON. When it is substantially higher than the BASE RATE, we would expect this candidate to be MORE likely to show that outcome. When it is less, the opposite is true.

Outcome	Base Rate	This Person
Still serving in hiring dept after 3 years	72%	68 %
Fired (or forced to resign) within 3 years	6%	4 %
Did BAD thing which made the newspaper	4%	3 %

Again, we emphasize that these are only probabilities. The decision maker should pay only modest attention to these. Still, considering these odds as a small part of a complex personnel decision may be helpful.

PSYCHOMETRIC REPORT

NAME: LUCAS, NATHAN L, BM257551032 AGE: 23 GENDER: M
FILE NUMBER: ADPSPOLI-7624 ISSUE: L-11
Date of Testing: 03/02/95 Date of Report: 03/02/95

IMPORTANT NOTE:

In public safety employment settings, the patterns below are presented primarily for the benefit of the employee (or candidate). They are not sufficiently comprehensive or valid to warrant selection or rejection although they may, of course, alert decision makers toward areas for further investigation.

HEALTH RISK PATTERNS:

A. Coronary artery disease finds the applicant with average resistance from the standpoint of temperament and behavior patterns. Mr. LUCAS' parasympathetic nervous system dampens reactivity to threat quite well, so that stress is easily tolerated. Fortunately, the temperament and life style patterns do not place undue demands on the applicant and thus no major changes seem necessary.

B. Other Stress Related Disorders are likely to be caused or aggravated by this man's psychological makeup. The applicant's active effort to control the environment and his sensitivity, both admirable traits in other contexts, make constant upset inevitable. Since contact with opposing persons is inevitable in public safety employment, he needs to make conscious efforts to become tougher, less sensitive, and thus avoid some of the excessive emotional upset. his apparent comfort and freedom from anxiety may give the applicant some minimal advantage in conscious management of stress reduction, but the basic pattern is not changed or greatly ameliorated by such action.

C. In regard to potential for abuse of chemical substances, Mr. LUCAS shows moderate similarity to persons who have alcohol problems. He should, however, have far less difficulty with other substances. NOTE WELL that these estimates are based ONLY on psychological factors, and have not considered substance involvement history, allergies, addictions, and other physiological factors AT ALL. Note also that the public safety environment expands both the stresses that often lead to substance abuse and the opportunities to become involved.

D. Accidents and Injuries pose only the normal risk for this applicant.

E. Psychiatric Status seems normal.

USUAL BEHAVIOR PATTERNS:

A. Favorable
   1. able to take effective action to meet problems
   2. will stick to task until mastery
   3. takes normal responsibility for independent action

B. Unfavorable
   1. may adhere rigidly to letter of rules

PSYCHOMETRIC REPORT

NAME: LUCAS, NATHAN L, BM257551032 AGE: 23 GENDER: M
FILE NUMBER: ADPSPOLI-7624 ISSUE: S-11
Date of Testing: 03/02/95 Date of Report: 03/02/95

This evaluation is organized into four major sections: the applicant's vocational competence, his work related interests, any barriers to vocational functioning, and personal characteristics which may constitute vocational assets or liabilities.

VOCATIONAL COMPETENCE

The applicant obtained IQ scores ranging between 87 and 113, with a weighted average of 100, a level of functioning best described as average (for full listing of tests and scores, see technical appendix). The jobs commonly available in the community, involving only some jobrelated training, are appropriate choices. The presence of intellectual potential somewhat higher than the level of educational development implies that the applicant may be able to function at a level above present status.

VOCATIONAL INTERESTS

No one can earn a living doing exclusively what is most congenial; with the average abilities shown here, significant consideration can be given to the following preferences, but only within substantial limits of job availability and other such factors.

Mr. LUCAS thoroughly enjoys activities which help people and serve to express his concern for others. Jobs which emphasize sensitivity to emotion and interpersonal skills should be most congenial. Basic desire and the habits required for its achievement seem well balanced, and, to the extent that the chosen work permits it, the applicant should adapt comfortably and well.

The applicant enjoys the outdoors, work related to agriculture, conservation, perhaps other applications of biology. Activities in which the emphasis is fitting oneself into nature (e.g., "field and stream" sports, camping, bird watching, etc.) is indicated.

SPECIAL ASSETS AND/OR LIABILITIES

Mr. LUCAS is a highly moral, even moralistic person. This implies ethical concerns, dependability, self discipline, and related values, but may also produce problems. He may well impose excessive standards upon himself and upon others, and become upset when inevitable failures to meet such goals occur.

Mr. LUCAS tends to be quite active in his dealings with the environment; he would rather strive for what he wants than accept situations as they are. Some tendencies to create conflict, but within tolerable limits, are indicated.

Mr. LUCAS is well balanced in his sense of his own power. He will attack minor barriers while accepting the limitations imposed by major ones.

MOTIVATIONAL PATTERNS

Mr. LUCAS is extremely motivated toward career success. Basic drives and the habits required for its achievement seem well balanced, and, to the extent that effort will succeed, this applicant should do so.

In addition, the applicant is strongly concerned about the welfare of his parents and the closeness of his relation to them. Little of this concern translates into everyday behavior; expression is at the level of wish and drive, and significant personal conflict in this area is indicated. Immature dependency needs may resolve only with counseling or similar intervention.

He also invests heavily in his relationship with his love partner, an emotional commitment energizing his sexual drive. However, the relationship is not as effectively obtained or maintained as it is intensely desired, and active efforts to strengthen and intensify the relationship are likely.

Turning now to a consideration of less intense motives which cause conflict, Mr. LUCAS fails to examine himself realistically, probably because fear over what he may find. The applicant is likely to have difficulty admitting shortcomings and receiving criticism.

PROBLEM AREAS (IF ANY) FOR INTERVIEW OR BACKGROUND REVIEW

Mr. LUCAS's emotional life is apparently healthy and normally effective. He seems quite comfortable in his life situation and able to maintain his behavior within acceptable limits.
