Caleb,

Deputy McKinney met with the mother at the incident location. After looking at the residence she advised that no one could have known that a screen had been removed. There were six windows along the rear of the residence and only one had a screen. She advised that she didn't want a report and was happy with our follow up. I completed a written counseling for Deputy McKinney, advising him of the importance of utilizing our body worn cameras during ALL calls. He acknowledged and signed the counseling without issue. If you need anything further, just give me a call. Thanks.

Ok. The mother stated a neighbor saw the subject. But she stated on the second alarm, her son who lives there and is owner of the house. When he went home on the second alarm, he found the recycling can under the rear window and window screen removed alluding that McKinney never checked the residence or got out of his car. The mother said her son works all day and probably wouldn't answer the phone, but she should be available. Supposedly her son or the neighbor has a photo of the recycling can under the window with screen removed. Hopefully this will help you out some.
