Good day,

Before you tell me this request has no responsive records, or even think about being dishonest, escalate this to your supervisor. This is a serious request and I am an expert at the open records laws. If you are not, escalate to someone who is.

My request

Employee listing with pay rank and salary of all employees of the sheriff's office. This is always free, I have hundreds of them.

In regards to ex shamed cop Austin Antonio Albino
All Garrity Warnings related to Austin Antonio Albino
Inmate complaints and public complaints on Antonio
1st page of all use of force incidents completed by Albino
Any audio or video interviews related to Albino
Service photo
Disciplinary file.

follow the law!

50-18-71 (a) (b) (2) An agency shall permit receipt of written requests by e-mail or facsimile transmission in addition to any other methods of transmission approved by the agency, provided such agency uses e-mail or facsimile in the normal course of its business.

50-18-71 (a) (b) (2) Any agency that designates one or more open records officers upon whom requests for inspection or copying of records may be delivered shall make such designation in writing and shall immediately provide notice to any person upon request, orally or in writing, of those open records officers. If the agency has elected to designate an open records officer, the agency shall so notify the legal organ of the county in which the agency's principal offices reside and, if the agency has a website, shall also prominently display such designation on the agency's website.

You have 72 hours. (3 Business days)

(b) (1) (A) Agencies shall produce for inspection all records responsive to a request within a reasonable amount of time not to exceed three business days of receipt of a request. This does NOT mean you can extend the time unless the records are in retention and have to be ordered. Most agencies think this means they must respond, there is nothing that states that in the law, it clearly states what it means, 72 hours to produce for inspection in records are available.

This is my favorite form to fill out <https://law.georgia.gov/key-issues/open-government/open-government-complaint>

Thanks
Billy Blume
