

Brian Acker

I wanted you to know DA Dick Donovan has been using county funds to pay the female admins and female victim witness assistants \$200 each of HUSH money this week.

If you Remember these same females sat thru an all female meeting last year just before Christmas with DA Donovan where he used sexual comments to tell them that he was not having an rumored affair with VWC Jamie White and that he didn't need Viagra and that all his sexual parts worked. He even printed out a picture of a blue pill and showed it in this meeting. Many of the meeting attendees were grossed out and sick with this meeting and talk. There's even a email from him about this meeting.

It's kinda ironic he's paying them from county funds the week before he is suppose to meet about the pending lawsuit against the county and against him on the 23rd.

Just thought as the head of HR you need to know this and be given a chance to deal with it before his letter hits Aaron Diamonds desk on Monday. He's the one that Frank Baker sent the opens records request for the investigation and a copy of DA Donovan's deposition to.

Yes the attorney for VWC White knows.
