I need your office to give a public statement on the Jermaine Jones case and why this is being tied up with NO justice. The DA is an elected official, this means she works for us, we the people, we go to work every day to pay taxes that you are a recipient of, kind of like welfare.. you don't have the luxury of ignoring the death of a man at the hands of pigs.

I can care less about any deal you made with the victim's family, I want those pigs in prison, we all do.

This case is being kept open with NO resolve or justice just to block the body cam and hide the fact your office is covering it up.. if you are not make a statement or release the body cam to me, I am extremely good with video, until then we the people will assume your office is corrupt.

I will publish your statement soon as you render one. Remember, this will NOT be swept under the rug. I promise!

Billy
