Good day,

This is my 2nd correspondence with you sir. I hope you are not violating the open records act by giving preference to traditional news agencies over the Freedom of press.. nah.. you would never do that.

I am asking once again, where is the investigation into the Jermaine Jones case? When will the investigative materials be released to the public? Why are the 4 officers, Leslie Gaiter, Parker Leathers and Chris Brown still officers today? Russell as well.

This man did not fall and hit his head man, come on.. there can't possibly be a scenario where he sustained those injuries on his own intentionally. Why was the drug evidence released to the public and not everything else, don't you find that suspicious?

To paint that kid as a junkie, act like the tasing caused it and force Russell to resign to give the family a false sense of security and the wrong impression, come on.. I have shown this in my videos.. too easy to see Russell was used, JUST because he tased the kid, even though he is actively employed by the Warrenton police department.

Hey man.. what if this was YOUR kid? I would take the same stand for him I am with Jermaine, I don't know the kid, but I have been beat by the cops before, I know the truth, I also know these 4 cops together is super bad news, I have filmed groups of cops and no issues but these, some of the worst files in all the cops I have profiled the past 3 years.. yeah 3 years.. my first video was in 2020 with RCSO Lucas Grant, this has nothing to do with my son, if he is found guilty then he will pay, if he is not guilty then RCSO will be held accountable, either way, don't get this twisted bud, this has nothing to do with my son. I know that's the narrative RCSO is going with LOL.. too bad my channel is full of videos from long before that.. not just RCSO but many police agencies.

now be a sport and do the right thing for Jermaine!!

You know all 4 of those cops are caught in a conspiracy, that is my opinion, at this point i can't prove it and as long as you withhold that body cam you can't disprove it.

Billy
