APD.SOP.2010/4.2.33 - Conformance to Directives

APD.SOP.3133 - Body Worn Cameras

According to APD.SOP.2020 your responsibilities, restrictions, and rights as an employee are:

3.4 Employee Responsibilities

All employees must answer questions and/or make available any relevant materials or sworn statements concerning an investigation of employee misconduct when directed to do so by a disciplinary authority or duly appointed investigator. Employees will provide all relevant information and materials and answer all questions honestly, completely, and to the best of their ability. **An employee's refusal to cooperate and provide sworn statements, answers, or relevant materials during an authorized administrative investigation will result in disciplinary action, up to and including dismissal.**

Any employee reporting for duty under the influence of any substance such as prescription medications, alcohol, over the counter medications, or other substances that, while legal, may adversely affect the judgment or performance of that employee during duty hours, must notify his or her immediate supervisor prior to commencing work.

3.5 Employee Restrictions

Except as authorized, in an investigation into employee misconduct, employees may not:

Interfere with the complaint investigation in any manner

Independently participate in the investigation

Be present during any investigative contact with a complainant or with witness involved in the investigation

Contact the complainant or witness concerning the allegations; or

Discuss the existence or facts of a complaint with anyone except designated Department authorities conducting the investigation. This restriction will not be construed to prohibit an employee from discussing any aspects of a complaint with his or her attorney or other representative, or to prevent his or her attorney from developing information for his or her defense.

3.6 Employee Rights

All employees have the right to have an attorney or other representative present during questioning in an administrative investigation. However, any employee who is either an accused employee or a witness in a complaint investigation may not act in the capacity of representative for any other employee being questioned as an accused or witness in that complaint investigation. An employee's representative shall be allowed to consult with the employee, and to object to questions, but shall not delay or interfere with the questioning process. Any objections to the form or content of the questions will be noted, but the employee shall still be required to answer fully and completely any and all questions presented during the investigation. An employee cannot delay questioning for more than three hours beyond the time he or she was given notice to appear for the questioning.

The employee being questioned as the accused will be issued the Written Notice of Allegations form (Form APD 848), which includes, but is not limited to a written statement of the allegation(s) and the employee's rights and responsibilities relative to the investigation against him/her prior to any questioning.

All employees who are subject to any form of discipline, whether non-adverse or adverse action, will be given written documentation of the disciplinary action taken. This written documentation must state the work rule which applies to the disciplinary action taken, information and/or documentation supporting the alleged work rule violation, and the disciplinary action that was taken. Employees must sign the written documentation stating that they have been notified of the disciplinary action taken. The employee's signature does not constitute an admission of guilt or wrongdoing, it serves only as receipt of the written documentation of disciplinary action and notification of the same.

The employee against whom a complaint has been filed may review the investigative folder upon completion of that investigation. The OPS commander will designate the area where the folder is to be reviewed and establish rules governing the review of the folder.

If the employee is being questioned as a suspect in a criminal investigation, the employee will be afforded complete Miranda Rights.

Administrative statements made by employees and evidence gained as a result of such statements shall not be used against the employee in criminal proceedings involving the employee except in cases of perjury.

I have received a copy of the allegation(s) and my rights and responsibilities relative to the investigation against me as the accused prior to any questioning.

My name is Jimmya Camp. I was on the phone with Amya while she got pulled over . She pulled over by the amc . The cop came to the car and only said "license" she gave it to him and he walked off. A few minutes later he said "step out of the car" so she got out the car and took the phone with her. He basically told her she needs someone with a valid driver license to take the car. then he asked her to sign all the citations . She asked him if i could get the car since i have my license . He said "yeah when i look up her name she better not have no warrants or i'm arresting her ass." He then said "she can't take the car her license is a class D" he told my that she needs to hurry up and find someone to take the car because he already called the tow truck . After that Amya just left the car . He didn't ask if she had a ride home he didn't care about anything .

Dear Sir,

I am writing to inform you I was not stopped at Princeton Lakes. I was blue lighted at Redwine rd. On this particular evening it was dark. There were no stop signs, yield signs, etc. I decided to pull over by the AMC theater where it was lighted. The officer approached my vehicle in a rude manner asking for my license. At no time did he state why he pulled me over. I gave him my driving permit, but he grabbed my license from my hand. Throughout this time he was talking to me condescending. He told me I needed to step out the car. The officer did not have a body camera, but I had my friend Jimmy on speaker phone to listen to how this officer was talking to me. The officer at no time explain what the citations were for and I needed to sign them. I was confused I didn't think I did any traffic violation other than drive on a permit that's it. The officer told me I needed to get someone with a valid drivers license. I told him I have a friend with a valid license so my mom's vehicle does not get impounded. The officer stated if my friend had any warrants "I'm locking their ass up." I give him her information and he said she didn't have the right license to take the car. At no time this officer tried to contact my mom. My mom is the registered owner of the vehicle and an ex cop also. As for my seat belt I did have it on. I didn't want him to arrest me arguing with him, since it appeared he was having a bad

As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all to liberty, equality, and justice. I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty. I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice. I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...law enforcement.

These were written when Chief Turner was Chief. Are they suppose to be updated? By the way I know my daughter is not an saint, but the officers are held to a higher standard and because of he was unprofessional or probably having a bad day he had no right to treat my child the way he did. I am really bend out of shape especially because I just lost my dad. And he even screwed up her chances to get her license now with these three citations. His word against her's. I guarantee you in his training record he has been in trouble better. He probably burnt out. And he can run to the police until and I will run to someone higher up.

Respectively,
Denise Hughley
